# SAULT COLLEGE OF APPLIED ARTS & TECHNOLOGY SAULT STE. MARIE, ONTARIO

# COURSE OUTLINE

| Course Title: | MACHINE SHOP          |             |       |
|---------------|-----------------------|-------------|-------|
| Code No.:     | MCH 106-2             |             |       |
| Program:      | WELDING & FABRICATING |             |       |
| Semester:     | TWO                   |             |       |
| D e:          | 1987 08 26            |             |       |
| Author:       | R. ZUCCATO            |             |       |
|               | New:                  | Revision: _ | XX    |
| APPROVED:     | Chairperson Dursky    | Date        | 28/87 |

MACHINE SHOP

Course Name

#### Course Number

## PHILOSOPHY/GOALS:

To demonstrate the close working relationship and inter dependence that exists between the welding and machinist trade. Also to develop an awareness of the problems that arise when machining parts that are welded as well as preparing parts to be welded.

## METHODS OF ASSESSMENT (GRADING METHOD):

Students will be assessed on attendance, initiative, co-operation and ability. Good attendance is of vital importance on any job and for this reason we stress it in this program. Generally good attendance is directly related to a students other qualities or abilities.

THEORY TESTS - 40%
LAB ASSIGNMENTS - 40%
ATTENDANCE - 20%

## TEXTBOOK(S):

MACHINE SHOP TRAINING - BY S.F. KRAR
4TH EDITION

#### **OBJECTIVES:**

To become familiar with and use hand tools, measuring tools, power tools and metal cutting machines used in the machinist trade.

To machine parts to close tolerances outlined on shop drawings or the working relationship between one part and another.

To develop a working knowledge of machining various types of metals and materials on different machine tools with a variety of cutters depending on the application required for a particular job or part.

| TOPIC NO. | PERIODS | TOPIC DESCRIPTION | REFERENCE |
|-----------|---------|-------------------|-----------|
|           |         |                   |           |

## TEXT - MACHINE SHOP TRAINING

| 1 2   | INTRODUCTION AND COURSE OUTLINE - organization of machine shop   | H.2/P.3-4  |
