I. COURSE DESCRIPTION: Through studying the human figure using traditional media, the student will gain a more complete understanding of human anatomy, composition, weight distribution, potential energy, form, and texture. The student will focus on creating the sense of form through understanding light and shadow.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Draw and understand the skeletal and muscular structures of the human body and its proportions
Potential Elements of the Performance:
 - Drawing individual and multiple bones and their relation to each other in the human body
 - Drawing individual and multiple muscles and their relation to each other in the human body
 - Drawing the human figure accurately, displaying proportional relationships of the body parts to the whole body
2. Draw the human figure in a variety of poses
Potential Elements of the Performance:
 - Understanding and drawing foreshortening in relation to the human form
 - Drawing the human figure in various poses
 - Creating gesture drawings of a figure spontaneously
 - Drawing accurate and proportionate human forms in a pose
3. Use a variety of shading techniques to achieve the illusion of volume
Potential Elements of the Performance:
 - Demonstrating the use of graduated and continuous tones, cross contour lines, and cross hatching to create volume
 - Simplifying, exaggerating, or distorting visual elements and proportions to highlight specific qualities
 - Create full body poses using shading techniques to create volume
4. Knowledge and understanding of light and shadow
Potential Elements of the Performance:
 - Drawing simple and complex objects, such as the human figure with its relation to its light source and the casting of shadows
 - Understand and demonstrate the ability to create volume using light and shadow

III. TOPICS:

1. the muscular and skeletal structures of the human body
2. proportions and the relation of individual body parts and systems to the whole
3. Illustrating form in the human body through poses
4. understanding light and shadow
5. The fundamentals of drawing portraits
6. Proper use and maintenance of art tools
