Program: Early Childhood Education

Course Title: PRESCHOOL EDUCATION I  

Course No.: ED 101-3

Instructors: Kathy Nielsen, Bev Sheehan

Date: Sept. 1981

Course Outline

Course Description

An introduction to preschool teaching methods and the role of the teacher in planning and implementing a creative learning environment to meet the psycho-social, motor and cognitive needs of the preschool child. Development of techniques and skill in the observing and recording of behaviour is an ongoing activity begun in this section of the program.

Course Philosophy

This course is designed to help students develop an understanding of the interdependence of human relations and curriculum content, to help students internalize the concept of the "whole" in the learning environment.

Course Goals:

1. To provide the student with a general knowledge of the role of the Ministry of Community and Social Services, and the interpretation of the Day Nurseries Act as it pertains to playroom and playground.

2. To provide the student with the information and resources needed to set up a creative learning environment for preschool children.

3. To provide the student with knowledge of and experience in using the basic teaching skills appropriate to a humanistic learning environment.

4. To develop in the student the ability to write meaningful observational reports of the behaviour of preschool children, and to develop an understanding of how to interpret and use these reports.

Course Objectives:

The student will demonstrate through assignments, examinations, workshops, group discussions, seminars, and in-preschool assignments:

1. the ability to evaluate the nursery school environment in terms of physical and psychological space; of equipment and materials which meet the developmental needs of the children; and in terms of cultural and personal values.

2. the ability to maintain a safe and healthy learning environment.

3. a knowledge of nursery school curriculum and activities which promote optimal growth for the individual child and for the group as a whole.
Course Objectives continued...

4. the ability to understand and practice the child study skills of the observation and recording of child behaviour.

5. appropriate teaching methods for dealing positively with children which set limits and extend and expand ideas and experiences.

Texts

2. Observing and Recording the Behaviour of Young Children, Cohen and Stern, Teachers College Press

3. Ministry leaflets

Methodology

Lectures, assigned readings, group discussions, films, role-playing, workshops and in-preschool assignments will be used to fulfill the above objectives.

The student will write assigned observations relating to the child and his experience. (Sample form attached)

Practice teaching in the preschools and in-preschool assignments will give the student an opportunity to integrate theory and practice.

Reading cards are required for assigned background reading of books and/or articles (Sample form below). File is to be submitted for evaluation on DECEMBER 14, 1981.

In order to develop an awareness of the literature relating to preschool education, two books are to be chosen from the library or other source and the choice is to be approved by the instructor. Book reviews are to be completed; first due date is OCTOBER 28, 1981.

A picture file and an "idea" file relating to the child's world and curriculum areas is to be begun and developed throughout the 15 weeks. Picture file to be submitted: NOVEMBER 30, 1981. Idea file to be submitted: DECEMBER 7, 1981.

NOTE: Readings may be assigned other than those from the texts. Articles of special significance will be distributed from time to time. Students are responsible for text material, notes, and assigned articles.
