1. SELF ANALYSIS OF TEACHING BEHAVIOURS: 20%
   
a) by Friday Nov 3, 2000, each student will summarize his/her strengths and competencies as outlined on their Semester II final evaluation and those currently displayed in this field placement (Semester III). Based on this assessment, as well as from comments on the mid-term evaluation (October 17, 2000), the student will formulate a plan for achieving competencies during the remainder of the placement.
2. VIDEO-TAPE ANALYSIS and ACTIVITY ASSESSMENT- 30%
Students will make arrangements to have themselves videotaped in their assigned field placement setting. **Steps must be taken to ensure parental permission for children to be videotaped.**
The Sault College camcorder has been reserved on Mondays and Tuesdays for this purpose. You must book the recorder with Media Services in the LAC. Your student card is required. Also, you must purchase your own video tape cassette (each person should have their own as this process will be repeated in the fourth semester).

**STEPS:**

a) Complete an Activity Plan for any curriculum area; submit the form to Seminar III instructor for approval prior to presentation of the activity in your placement. **This must be at least two weeks prior to your presentation date.**

b) Have yourself video-taped presenting this activity to the children; remember to make sure that the entire process of the activity is on tape (introduction-IN PARTICULAR- to conclusion).

c) after the videotaping, review the tape and analyze your teaching thoroughly, referring to the relevant questionnaire. Your assigned grade will be based on your own ability to assess and describe your teaching techniques, not on the quality of the videotape itself. **THIS ANALYSIS MUST BE TYPED**

d) Submit your analysis (20%), the completed and approved Activity Plan (5%), and the Video Activity Evaluation (5%) to your instructor BY THE DUE DATE (the week following the completion of your taping session, as scheduled with the instructor). Those who do not follow this procedure will receive a grade of zero for this project.

Students are expected to make constructive suggestions to peers. The course professor will monitor student contributions.

   c) **CHILD GUIDANCE**: Class discussions will take place regarding the text information from "Practical Solutions For Practically Every Problem". **EACH STUDENT WILL BE ASKED TO SUMMARIZE A SECTION FROM THE TEXT, AND PROVIDE PERSONAL EXPERIENCES TO HIGHLIGHT THE MAIN POINTS. A typed summary of your presentation must be available to hand out to your classmates the day of your presentation. = 10%**

VI. SPECIAL NOTES:

**Important Notes to Students:**

**Class Activities:**
1. Attendance plays an important role in successful learning and skill development, so students are expected to attend.
2. Students are responsible for work assigned during absences.
3. Students should be aware that the expectations for their conduct in class are outlined in the “Statement of Student Rights and Responsibilities” in the Student Sault College Handbook.
4. The Professor will list dates, for tests and assignments on the course outline; however the professor reserves the right to give unannounced quizzes and in-class assignments.

**Assignments:**
1. All assignments must be submitted on the due date at the beginning of the class period unless otherwise specified by the professor.
2. To protect students, assignments must be delivered by the student/author to the professor.
3. Late submissions *may be* accepted up to one week after the due date at the discretion of the professor; however, the penalty is the loss of one letter grade (i.e. a “B” assignment will be reduced to a “C”). The late submission *may receive* only a letter grade with no evaluative comments.
4. **Assignments more than one week late will not be accepted.**
5. Students must adhere to dates set for oral presentations unless the professor has approved prior arrangements. Presentations that are merely read will receive a failing grade. Students who do not present on their presentation date will forfeit the mark for that assignment.
6. Students have the responsibility to be aware of assignment due dates. If they miss in-class assignments that are due at the end of the class period for evaluation, they forfeit the mark.
7. Students are responsible for retaining a file of all drafts and returned assignments. We suggest students keep their computer file of assignments until the end of the semester. In the event of a grade dispute, students must produce the graded assignment, so it can be recorded.

**Tests:**
1. Tests must be completed on the date scheduled by the professor. If unable to attend, the student must contact the professor prior to the start of the test. If this procedure is not followed, the student will receive a mark of “zero” for the test.
Special Needs:
If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with the instructor and/or contact the Special Needs office, Room E1204, Extension 493, 717, or 491 so that support services can be arranged for you.

Retention of course outlines:
It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other post secondary institutions.

Disclaimer for meeting the needs of learners:
The Professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.
