COURSE PHILOSOPHY:

This course is designed to assist students in gaining: therapeutic, less stereotyped attitudes towards abusers; a feeling for the importance of working with other professionals and with community groups; and self-confidence in their ability to respond appropriately in abuse cases.

COURSE OBJECTIVES:

1. To provide students with basic "background knowledge" on the subject of child abuse – eg. definitional problems, current estimates of the incidence of child abuse and a multiple-factor model for understanding the causes of child abuse.

2. To prepare students who will be working with children and their families for their critical role in the early identification and referral of families in which abuse is suspected or deemed to be a high risk.

3. To prepare students to work in multi-disciplinary effort around issues of assessment and treatment.

TEXTS:

NOTE: On Reserve in Library.

SYLLABUS

Week 1

A. Introduction to the Course
   - Course Content
   - Description of Assignments

B. Introduction to Child Abuse
   - Historical Background

C. Film: War of the Eggs (28 minutes)
