Introduction to Exceptional Students (ED 117)
Instructor: T. Hanlon

COURSE DESCRIPTION

This course is designed as an introduction to characteristics of children identified as exceptional and to Special Education in Ontario. Definition and classification; prevalence and etiology; identification; developmental consequences; and appropriate interventions for the various categories of exceptionality will be explored.

OBJECTIVES

To enable the student to demonstrate a basic understanding of:

1. the meaning of Special Education in the Province of Ontario
2. the major categories and prevalence of exceptionalities
3. the major causes of exceptionality
4. the role and reactions of family (parents and siblings) and professionals (doctors, teachers, other health and education professionals) to the exceptional child
5. the types, the causes of, and the interventions required for children with intellectual differences
6. the types, the causes of, and the interventions required for children with communication disorders
7. the types, the causes of, and the interventions required for children with sensory deficits
8. the types, the causes of, and the interventions required for children with emotional disturbances
9. children with moderate and severe physical and health problems such as spinal bifida, multiple sclerosis and asthma
10. children with multiple handicaps
11. causes and the prevention of Child Abuse

TOPICS

1. Special Education Legislation and Policy in Ontario
2. Categories, Prevalence, and Causes of Exceptionality
3. Family Reaction to Exceptionality
4. Children with Mental Handicaps
