

COURSE OUTLINE: MAC303 - METROLOGY III

Prepared: Peter Corbett

Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title	MAC303: METROLOGY III
Program Number: Name	6347: GENERAL MACHINIST L3
Department:	MECHANICAL TECHNIQUES PS
Semesters/Terms:	21F, 22W, 22F
Course Description:	This course is designed to provide Level III General Machinist Apprentices the ability to demonstrate inspection and checking techniques using measuring and checking equipment, and, describe measuring and checking techniques using Optical Comparators and Coordinate Measuring Machines (CMM).
Total Credits:	1
Hours/Week:	1
Total Hours:	6
Prerequisites:	There are no pre-requisites for this course.
Corequisites:	There are no co-requisites for this course.
Vocational Learning Outcomes (VLO's) addressed in this course:	6347 - GENERAL MACHINIST L3
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 1 General Machinist - L3
Essential Employability Skills (EES) addressed in this course:	EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience. EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication. EES 3 Execute mathematical operations accurately. EES 4 Apply a systematic approach to solve problems. EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others. EES 9 Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals. EES 10 Manage the use of time and other resources to complete projects.
Course Evaluation:	Passing Grade: 50%, D A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2021-2022 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

Other Course Evaluation & Assessment Requirements:

Other Course Evaluation Requirements: Smart watches, smart phones and similar devices are not allowed during tests or quizzes and must be removed.

Grade

Definition Grade Point Equivalent

A+ 90 - 100% 4.00

A 80 - 89%

B 70 - 79% 3.00

C 60 - 69% 2.00

D 50 - 59% 1.00

F (Fail) 49% and below 0.00

CR (Credit) Credit for diploma requirements has been awarded.

S Satisfactory achievement in field /clinical placement or non-graded subject area.

U Unsatisfactory achievement in field/clinical placement or non-graded subject area.

X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.

NR Grade not reported to Registrar's office.

W Student has withdrawn from the course without academic penalty.

Books and Required Resources:

Technology Of Machine Tools by Steve F. Krar, Arthur R. Gill, Peter Smid, Robert J. Gerritsen
 Publisher: McGraw - Hill Edition: 8
 ISBN: 9781260565782

Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
1. Describe safe working procedures when setting up and operating measuring and checking equipment.	1.1 Identify potential safety hazards which may occur during the set-up and operating of measuring and checking equipment. Demonstrate safe work habits including: <ul style="list-style-type: none"> - protective clothing - protective equipment and gear - good housekeeping - stabilizing workpieces - operating procedures - securing workpieces - storage and handling of equipment
Course Outcome 2	Learning Objectives for Course Outcome 2
2. Describe the fundamentals of measuring, checking, and gauging equipment. (1 hr)	2.1 Describe measuring, checking, and gauging equipment: <ul style="list-style-type: none"> - sine bar and sine plate - compound sine plate - precision cylindrical square - precision level - precision rollers - precision balls - tooling balls - thread wires - precision weight gauge - plug gauges - ring gauges - snap gauges

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2021-2022 academic year.

	<ul style="list-style-type: none"> - surface texture gauge - square - dial test gauges - mechanical comparator - optical flats - gauge blocks - optical comparators - electrical comparator - air gauges
Course Outcome 3	Learning Objectives for Course Outcome 3
3. Describe the components, adjusting mechanisms, and working principles of an optical comparator. (1 hr)	3.1 Describe parts of an optical comparator: <ul style="list-style-type: none"> - illumination mechanism - surface illumination - table - dials - mylars - screen - micrometer dial - read out - angular settings/adjustments - linear settings/adjustments - locks - magnification - on/off
Course Outcome 4	Learning Objectives for Course Outcome 4
4. Set up workholding devices and accessories for an optical comparator. (0.5 hrs)	4.1 Identify workholding devices and attachments: <ul style="list-style-type: none"> - vise - Vee-block - angle plates - fixtures - centres Demonstrate mounting, positioning, aligning, and securing procedures.
Course Outcome 5	Learning Objectives for Course Outcome 5
5. Describe terminology and measuring techniques for an optical comparator. (0.5 hrs)	5.1 Describe terms used in optical comparator measurement techniques: <ul style="list-style-type: none"> - accuracy - precision - tolerances - reliability - limits - fits - datums - discrimination Identify error sources in measurement and machine limitations: <ul style="list-style-type: none"> - inherent instrument error - observational error - manipulative error - bias error

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2021-2022 academic year.

	<ul style="list-style-type: none"> - parallel error - angular error - profile illumination
Course Outcome 6	Learning Objectives for Course Outcome 6
6. Demonstrate operational procedures for an optical comparator. (1 hr)	<p>6.1 Describe cleaning techniques of calibrated test specimen surfaces.</p> <p>Identify features of workpiece to be checked.</p> <p>Select indicating gauges and comparators by determining:</p> <ul style="list-style-type: none"> - type and applications - component to be checked - vibration errors - accessibility to location - predetermined values - temperature variations - graduating values - checking ranges - measuring ranges - surface comparison - magnification - illumination of part profile/part surface
Course Outcome 7	Learning Objectives for Course Outcome 7
7. Demonstrate measuring and checking techniques using an optical comparator. (1 hr)	<p>7.1 Demonstrate cleaning techniques of workpiece surfaces.</p> <p>Describe geometric features to be measured and/or checked.</p> <p>Demonstrate measurement and checking of geometric features.</p> <p>Demonstrate inspection and recording techniques.</p>
Course Outcome 8	Learning Objectives for Course Outcome 8
8. Describe the functions and operating principles of Coordinate Measuring Machines (CMM). (1 hr)	<p>8.1 Describe cleaning techniques of workpiece surfaces.</p> <p>Describe calibration/orientation techniques.</p> <p>Identify features to be measured and/or checked.</p> <p>Describe recording techniques.</p>

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Attendance, Participation and Attitude	5%
Final Test	50%
Mid term	25%
Quiz 1	10%
Quiz 2	10%

Date: August 13, 2021

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2021-2022 academic year.

Addendum:

Please refer to the course outline addendum on the Learning Management System for further information.
