

COURSE OUTLINE: ENP111 - CRITICAL CARE LAB

Prepared: Stephanie Collins BN, RN

Approved: Bob Chapman, Dean, Health

Course Code: Title	ENP111: CRITICAL CARE LAB
Program Number: Name	3044: ENHANCED PRACTICE
Department:	PRACTICAL NURSING
Academic Year:	2023-2024
Course Description:	Students will have an opportunity to experience labs and simulations that require them to provide care for patients with complex medical-surgical conditions. Students will focus on the refinement of nursing skills, assessments and critical thinking. Learners will review the Professional and Practice Standards of the College of Nurses of Ontario and the Canadian Association of Critical Care Nurses (CACCN). This program will assist students to understand the steps needed to attain certification as Critical Care Nurse in Ontario.
Total Credits:	3
Hours/Week:	3
Total Hours:	42
Prerequisites:	There are no pre-requisites for this course.
Corequisites:	ENP111, ENP114, ENP116
Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable.	3044 - ENHANCED PRACTICE VLO 1 Conduct comprehensive assessments to plan individualized care supporting health promotion and disease prevention in complex and non-routine patient environments. VLO 2 Integrate evidence-informed research, theory, and critical inquiry within the context of the Canadian health-care system to inform nursing practice and advance clinical judgement in the acute care setting. VLO 5 Integrate and promote best practices and approaches in relation to the gerontological population within the Canadian healthcare system to plan and deliver nursing care in the acute care setting. VLO 6 Assess, plan, implement, and evaluate nursing care across the lifespan within the continuum of acute care. VLO 10 Advocate for client, self and the nursing profession by implementing strategies to provide safe and quality nursing care in the acute care setting. VLO 11 Integrate principles and philosophy of end of life care to support the client and their families through the experience of death and dying.
Essential Employability Skills (EES) addressed in this course:	EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience. EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication. EES 3 Execute mathematical operations accurately.

- EES 4 Apply a systematic approach to solve problems.
- EES 5 Use a variety of thinking skills to anticipate and solve problems.
- EES 6 Locate, select, organize, and document information using appropriate technology and information systems.
- EES 7 Analyze, evaluate, and apply relevant information from a variety of sources.
- EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others.
- EES 9 Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.
- EES 10 Manage the use of time and other resources to complete projects.
- EES 11 Take responsibility for ones own actions, decisions, and consequences.

Course Evaluation:

Passing Grade: 50%,

A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.

Books and Required Resources:

Medical-Surgical Nursing in Canada: Assessment and Management of Clinical Problems by Lewis
 Publisher: Elsevier Edition: 5th Ed.

Clinical Nursing Skills & Techniques Publisher by Perry, Potter, Ostendorf, & Cobbett
 Publisher: Elsevier Edition: 1

Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
1. Students will actively participate in lab and simulation activities that require them to provide care for patients with complex medical-surgical conditions, while applying their nursing skills, assessment skills and critical thinking ability.	1.1 Students must attend all laboratory sections and participate in all aspects of the lab learning experience. 1.2 The laboratory instructor will evaluate students and must deem them successful to receive a passing grade in this course. 1.3 Demonstrate nursing skills, covering a variety of topics relevant to inflammation, immune dysfunction, shock, sepsis, MODS, SIRS, respiratory failure, ARDS, critical care nursing, emergency care, trauma and code management. 1.4 Demonstrate successful utilization of critical thinking to anticipate, assess, and solve problems presented to students. 1.5 Demonstrate knowledge, application, and evaluation of selected nursing skills. 1.6 Outline and explain rationales for selected nursing interventions and skills.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Final Exam	20%
Lab Skills Checkpoint #1	20%
Lab Skills Checkpoint #2	20%
Numeracy Test	20%

	Scenario Testing	20%
Date:	December 18, 2023	
Addendum:	Please refer to the course outline addendum on the Learning Management System for further information.
