

COURSE OUTLINE: MTF235 - PATTERN & TEMPLATE 2

Prepared: Dave Holley

Approved: Corey Meunier, Dean, Technology, Trades, and Apprenticeship

Course Code: Title	MTF235: PATTERN AND TEMPLATE DEVELOPMENT 2
Program Number: Name	4051: METAL FABRICATION
Department:	IRONWKR APPR./WELDING RELATED
Academic Year:	2023-2024
Course Description:	In this course students will taught how to develop and layout templates and patterns, through the interpretation of drawings, using common layout and measuring tools, applying shop formulas and performing calculations to ensure the accuracy and functionality to meet the tolerances specified in the blueprints and specifications of the manufactured item.
Total Credits:	3
Hours/Week:	3
Total Hours:	42
Prerequisites:	MTF207
Corequisites:	There are no co-requisites for this course.
Substitutes:	MTF200
Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable.	 4051 - METAL FABRICATION VLO 1 Interpret blueprints and produce basic drawings and bills of materials. VLO 4 Create and use patterns and templates using common layout and measuring tools. VLO 6 Develop project plans relating to component and sub-assembly production. VLO 7 Complete all work in compliance with health and safety legislation and prescribed organizational practices and procedures to ensure safety of self and others. VLO 8 Work responsibly and effectively in accordance with government safety regulations, manufacturer's recommendations and approved industry standards.
Essential Employability Skills (EES) addressed in this course:	EES 3 Execute mathematical operations accurately. EES 4 Apply a systematic approach to solve problems. EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others. EES 9 Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals. EES 10 Manage the use of time and other resources to complete projects. EES 11 Take responsibility for ones own actions, decisions, and consequences.
Course Evaluation:	Passing Grade: 50%, D

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

MTF235: PATTERN AND TEMPLATE DEVELOPMENT 2

A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation. Other Course Evaluation & 1. Late hand in penalties will be -10% per day. Assessment Requirements: 2. If a student misses a test, he/she must have a valid reason (i.e. medical or family emergency documentation shall be required). In addition, the instructor MUST be notified PRIOR to the test sitting. If this procedure is not followed the student will receive a mark of zero on the test with no make-up option. 3. Re-writes are NOT allowed for any written assignment, guiz or test. 4. Course attendance is mandatory. Any student that is not present for the first 3 classes in each course, will be deemed to have not completed the required safety orientation for the course and will not be permitted to continue. One percent (1 %) per hour will be deducted from the final course grade for unexcused* absence. Any unexcused attendance beyond 15% of the total allocated course hours will result in the student receiving a failing grade for the course. Valid reasons would include: Doctors note Family Death or Serious Illness supported by a written note. Unexcused absence* will be determined in a case by case basis by the instructor of each course. **Books and Required** IPT's Metal Trades & Welding Resources: Publisher: IPT Publishing & Training Ltd Kit: ILM Post Secondary Package by Alberta Government Publisher: AK Graphics, Sault College Print Shop Course Outcomes and Course Outcome 1 **Learning Objectives for Course Outcome 1** Learning Objectives: Develop patterns and templates employing triangulation Curriculum based on a combination of theoretical method. knowledge and practical oblique cones (hands on) skill related to oblique cones with elliptical elements the development and rectangle to round creation of patterns and rectangle to elliptical templates. reducing elbows hoppers and chutes mismatched shapes truncated shapes Use mathematical problem solving techniques to support the development of patterns. square to round tapered rectangular shapes tapered conical shapes trigonometry ratio and proportion Pythagorean theorem **Evaluation Process and Evaluation Type Evaluation Weight Grading System:**
