

COURSE OUTLINE: PMC205 - PROJ INTEGRATION SIM

Prepared: Angela Katimbang

Approved: Martha Irwin, Dean, Business and Information Technology

Course Code: Title	PMC205: PROJECT INTEGRATION SIMULATION			
Program Number: Name	2176: PROJECT MANAGEMENT			
Department:	BUSINESS/ACCOUNTING PROGRAMS			
Academic Year:	2024-2025			
Course Description:	This course provides students with rigorous simulation of the project principles and performance domains by using project principles and performance domains that exposes and elaborates various aspects of project management through realistic situational learning. This course also aims to build students' confidence to take a project from inception to a successful completion through hands-on case studies and classroom discussions. Course activities will also drive students' excitement, understanding and retention of project techniques. Students will also be given practical and hands-on approach through exercises, group discussions and assignments.			
Total Credits:	4			
Hours/Week:	4			
Total Hours:	56			
Prerequisites:	PMC101, PMC106			
Corequisites:	There are no co-requisites for this course.			
This course is a pre-requisite for:	PMC400, PMC410			
Vocational Learning Outcomes (VLO's) addressed in this course:	2176 - PROJECT MANAGEMENT			
	VLO 1 Manage the scope, cost, timing, and quality of the project at all times focused on project success as defined by project stakeholders.			
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 3 Define and manage the overall scope of the project, deliverables, constraints, performance criteria, benchmarks (including financial) and resource requirements in consultation with project stakeholders.			
	VLO 11 Apply project management practices to the launch of new programs, initiatives, products, services, and events relative to the needs of stakeholders.			
Essential Employability Skills (EES) addressed in this course:	EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.			
	EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication.			
	EES 4 Apply a systematic approach to solve problems.			
	EES 5 Use a variety of thinking skills to anticipate and solve problems.			
	EES 7 Analyze, evaluate, and apply relevant information from a variety of sources.			
	EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of

Course Outcomes and Learning Objectives: Course Outcome 1	•	Publisher: Wiley. Edition: 5th ISBN: 9781119385974 A guide to the project body of knowledge by Project Management Institute Publisher: Newton Square, PA. Edition: 7th				
Learning Objectives: Implement strategies to solve realistic situational problems found throughout all project phases.						
Implement strategies to solve realistic situational problems found throughout all project phases. 1.2 Research the differences between project analysis tools used by project managers. 1.3 Evaluate a projects outcome by using monte carlo simulation. Course Outcome 2 Contrast the various tools used in project management. 2.1 Analyze a project to determine project deliverables and project process. 2.2 Research the various project analysis tools used by project managers. 2.3 Review stakeholder needs and acceptance within a project. Course Outcome 3 Analyze the scope, cost and scheduling controls used in the project management planning process. Analyze the scope, and scheduling controls used in the project management planning process. 3.1 Distinguish the difference between a project, program and portfolio. 1.2 Research the differences between a project, analysis tools used by project of the various project deliverables and project process. 2.2 Research the various project analysis tools used by project managers. 2.3 Review stakeholder needs and acceptance within a project. 3.1 Analyze a scope statement. 3.2 Utilize network diagramming to analyze project data. 3.3 Effectively manage risks to properly analyze a project. 3.4 Review the components of developing a project schedule.
