

I. COURSE DESCRIPTION:

A study of the science of psychology: its methods, concepts, and theories, including the topic areas of 1) brain, consciousness, sensation, and perception; 2) learning and memory; 3) intelligence, thought, and creativity; 4) motivation. Psychological concepts will be studied with a view towards how they can be applied to enhance the student's understanding of psychological adaptation and the causes and consequences of human behaviour.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Identify and describe the major approaches to psychology, the contributors, and the research methods.

Potential Elements of the Performance:

- identify the key names in the history of psychology and their main contributions
- list and differentiate the five major approaches to psychology
- list and describe various methods of research design, including factors affecting research

2. Describe and explain the role that biology plays in the field of psychology.

Potential Elements of the Performance:

- describe the structure and function of the central nervous system
- describe the structure and function of neurons and the roles played by neurotransmitters and receptors
- list and describe the structure and function of the peripheral nervous system
- explain the specialization of the cerebral hemispheres and the effects of brain damage
- describe the major endocrine glands, the hormones they secrete, and their principle functions

3. Describe and explain the relationships between sensation, perception, and behaviour.

Potential Elements of the Performance:

- list the senses and describe how sensory stimuli are experienced as sensations
- describe the Gestalt principles of perceptual organization
- identify factors that influence perception and categorize them according to biological, psychological, or environmental factors

4. Describe the different levels of human consciousness and the factors that influence them.

Potential Elements of the Performance:

- distinguish and explain the different levels of sleep and consciousness
- describe and differentiate how consciousness can be altered by hypnosis and drugs
- describe and differentiate sleep disorders

5. Identify and describe the major learning theories.

Potential Elements of the Performance:

- explain and differentiate classical, operant, and cognitive learning theories
- explain the concept of operant conditioning and describe the main influencing factors
- describe the various types of cognitive learning theories

6. Describe the systems and processes involved in memory.

Potential Elements of the Performance:

- explain and distinguish the different systems and processes involved in memory
- compare the nature of remembering with forgetting
- evaluate and apply current research to memory improvement

7. Recognize various concepts and controversies of intelligence and its measurement.

Potential elements of the Performance:

- explain the nature-nurture issues of intelligence
- identify issues of cultural diversity as it relates to the use and misuse of IQ testing

8. Describe the physiological, cognitive, and behavioural components involved in the main theories of motivation.

Potential elements of the Performance:

- describe and identify the main theories of motivation
- describe the “social motives” for achievement and competence

III. TOPICS:

1. Discovering Psychology
2. Psychology and Science
3. The Brain's Building Blocks
4. The Incredible Nervous System
6. Perception
7. Consciousness, Sleep, and Dreams
8. Hypnosis and Drugs
9. Classical Conditioning
10. Operant Conditioning and Cognitive Learning Theory
11. Types of Memory
12. Remembering and Forgetting
13. Intelligence
15. Motivation

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

Introduction to Psychology (2014) 10th Edition, **Rod Plotnik**. Nelson Education Canada

V. EVALUATION PROCESS/GRADING SYSTEM:

Evaluation

Students will be responsible for regular attendance and class participation in all areas of the course, as well as all readings and tests as requested. The course content and evaluation can be modified at the discretion of the professor.

The final course grade will be determined as follows:

Tests (4)	60%
Take Home Quiz (Modules 9&10)	5%
Application Activity (Module 9)	5%
Assignment(s)	25%
Class Activities	<u>5%</u>
Total	100%

If a faculty member determines that a student is at risk of not being academically successful, the faculty member may confidentially provide that student's name to Student Services in an effort to help with the student's success. Students wishing to restrict the sharing of such information should make their wishes known to the coordinator or faculty member.

If a student misses a test due to a verifiable illness or incident, the professor will determine if the student is eligible for an extension for an assignment or re-scheduling of a test. The student is ultimately responsible and obligated to contact the professor by phone, in person, or in writing **prior** to the assigned due date or test time. The College touch-tone/24-hour voice mail number allows you to immediately notify the professor with your name, message, and phone number.

Upon returning to college (your first day back), the student will **immediately** contact the professor to make arrangements for the assignment or test. Phone, or come by the professor's office, or leave a note under his/her office door with a telephone number where you can be reached. **Failure to do so will result in a zero grade.**

Notification policy in brief: **Mutual respect, courtesy, and accountability.**

Students are responsible for obtaining any materials missed due to absenteeism.

The following semester grades will be assigned to students:

<u>Grade</u>	<u>Definition</u>	<u>Grade Point Equivalent</u>
A+	90 – 100%	4.00
A	80 – 89%	
B	70 - 79%	3.00
C	60 - 69%	2.00
D	50 – 59%	1.00
F (Fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.	
X	A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course without academic penalty.	

Note: For such reasons as program certification or program articulation, **certain courses require minimums of greater than 50% and/or have mandatory components to achieve a passing grade. It is the student's responsibility to be informed of their program's requirements.**

It is also important to note, that the minimum overall GPA required in order to graduate from a Sault College program remains 2.0.

VI. SPECIAL NOTES:

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

VII. COURSE OUTLINE ADDENDUM:

The provisions contained in the addendum are located on the student portal. Students are responsible for becoming familiar with this information. Go to <https://mysaultcollege.ca>.
