

COURSE OUTLINE: MTF132 - GTAW WELDING 1

Prepared: Dave Holley

Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title	MTF132: GAS TUNGSTEN ARC WELDING 1
Program Number: Name	4051: METAL FABRICATION 4053: WELDING TECHNIQUES
Department:	IRONWKR APPR./WELDING RELATED
Semesters/Terms:	21W
Course Description:	Perform welding procedures using Gas Tungsten Arc Welding (GTAW) process in accordance with government safety regulations, manufacturer recommendations, and approved industry standards.
Total Credits:	2
Hours/Week:	2
Total Hours:	30
Prerequisites:	There are no pre-requisites for this course.
Corequisites:	There are no co-requisites for this course.
Vocational Learning Outcomes (VLO's) addressed in this course:	4051 - METAL FABRICATION
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 2 Apply knowledge of various welding and metal cutting techniques and theories to produce components and sub-assemblies.
	VLO 3 Prepare materials by utilizing fabrication machinery and equipment.
	VLO 5 Understand and use a variety of destructive and non-destructive methods to test welds.
	VLO 7 Complete all work in compliance with health and safety legislation and prescribed organizational practices and procedures to ensure safety of self and others.
	VLO 8 Work responsibly and effectively in accordance with government safety regulations, manufacturer's recommendations and approved industry standards.
Essential Employability Skills (EES) addressed in this course:	EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 10 Manage the use of time and other resources to complete projects. EES 11 Take responsibility for ones own actions, decisions, and consequences.
Course Evaluation:	Passing Grade: 50%, D A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.
Other Course Evaluation & Assessment Requirements:	1.Late hand in penalties will be -10% per day. 2.If a student misses a test, he/she must have a valid reason (i.e. medical or family emergency documentation shall be required). In addition, the instructor MUST be notified PRIOR to the test sitting. If this procedure is not followed the student will receive a mark of zero on the test with

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

no make-up option.
 3.Re-writes are NOT allowed for any written assignment, quiz or test.
 4.Course attendance is mandatory. Any student that is not present for the first 3 classes in each course, will be deemed to have not completed the required safety orientation for the course and will not be permitted to continue. One percent (1 %) per hour will be deducted from the final course grade for unexcused* absence. Any unexcused attendance beyond 15% of the total allocated course hours will result in the student receiving a failing grade for the course.

Valid reasons would include:
 Doctors note
 Family Death or Serious Illness supported by a written note.

Unexcused absence* will be determined in a case by case basis by the instructor of each course.

Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
Curriculum based on demonstrating the knowledge and skills required to be competent in the gas tungsten arc welding process while following applicable industry standards and codes.	Upon successful completion of this course, the student will demonstrate the ability to: <ol style="list-style-type: none"> 1. Describe the power sources required for the gas tungsten arc welding process. <ul style="list-style-type: none"> - Constant current power sources. - Alternating current and direct current. - Power source requirements. - Power source options and features. - Power source set up and maintenance. 2. Describe the process requirements in regards to filler metals, electrodes and shielding gasses. <ul style="list-style-type: none"> - Shielding gasses. - AWS electrode classifications. - AWS and CSA filler metal classifications. - Proper selection of filler metals, electrodes and shielding gasses. 3. Understand the proper procedures and requirements for welding of various metals with the gas tungsten arc welding process. <ul style="list-style-type: none"> - GTAW aluminum and its alloys. - GTAW stainless steels and its alloys. - GTAW mild carbons steels and their alloys. 4. Describe maintenance and trouble shooting of gas tungsten arc welding equipment. <ul style="list-style-type: none"> - GTAW torch assembly. - GTAW flow meters and regulators. - GTAW hoses and cables 5. Demonstrate the ability to weld with the gas tungsten arc welding process. <ul style="list-style-type: none"> - Produce acceptable welds on mild steel.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

1F Lap Carbon Steel	15%
1F Lap/Tee Aluminum	15%
1F Lap/Tee Stainless Steel	15%
1F Tee Carbon Steel	15%
2F Lap Carbon Steel	15%
2F Tee Carbon Steel	15%
3F Tee Carbon Steel	10%

Date: June 11, 2020

Addendum: Please refer to the course outline addendum on the Learning Management System for further information.

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.
