

COURSE OUTLINE

AVF241

1

Prepared: Louis St Pierre Approved: Greg Mapp

Course Code: Title	AVF241: METEOROLOGY III
Program Number: Name	4061: AVIATION TECHNOLOGY
Department:	AVIATION TECHNOLOGY
Course Description:	This course reviews the theory and meteorological services for pilots learned in first year meteorology, and explore more advanced theory in preparation for writing the Transport Canada Commercial Written Exam (CPAER).
Total Credits:	2
Hours/Week:	1
Total Hours:	15
Prerequisites:	AVF111
This course is a pre-requisite for:	AFT250, AVT361
Essential Employability Skills (EES):	<p>#4. Apply a systematic approach to solve problems.</p> <p>#5. Use a variety of thinking skills to anticipate and solve problems.</p> <p>#6. Locate, select, organize, and document information using appropriate technology and information systems.</p> <p>#7. Analyze, evaluate, and apply relevant information from a variety of sources.</p> <p>#11. Take responsibility for ones own actions, decisions, and consequences.</p>
Course Evaluation:	Passing Grade: 70%, B
Other Course Evaluation & Assessment Requirements:	<p>In order to be excused from class, students must contact the professor by either calling extension 2666 and leaving a message, or by sending an email. In either case, the message must be received prior to the start of class.</p> <p>Students may request a deferment of a test for compassionate reasons. Compassionate Grounds for deferment will include but not be limited to death of an immediate family member, personal illness, or recent diagnosis of a serious illness of a family member. Make-ups will not be permitted after the fact for compassionate reasons.</p> <p>Dates of tests will be announced at least 1 week in advance.</p>

2

Prepared: Louis St Pierre Approved: Greg Mapp

	<p>If a faculty member determines that a student is at risk of not being successful in their academic pursuits and has exhausted all strategies available to faculty, student contact information may be confidentially provided to Student Services in an effort to offer even more assistance with options for success. Any student wishing to restrict the sharing of such information should make their wishes known to the coordinator or faculty member.</p>
Evaluation Process and Grading System:	<p>Final exam is 50% of the total grade</p> <p>Tests is 50% of the total grade</p>
Books and Required Resources:	<p>Aeronautical Information Manual by Transport Canada</p> <p>Royal Canadian Air Force Weather Manual by 1 Canadian Air Division Publisher: 978-0-660-202060-0</p> <p>Royal Canadian Air Force Work Book</p>
Course Outcomes and Learning Objectives:	<p>Course Outcome 1.</p> <p>Understand and apply Meteorology theory as it applies to Commercial Pilots</p> <p>Learning Objectives 1.</p> <p>Review of material taken in 1st year</p> <p>Course Outcome 2.</p> <p>Interpret and apply weather reports and forecasts</p> <p>Learning Objectives 2.</p>

COURSE OUTLINE

AVF241

3

Prepared: Louis St Pierre Approved: Greg Mapp

Review Meteorological information available to pilots

Course Outcome 3.

Explore advanced Meteorological Theory

Learning Objectives 3.

High level meteorology, complex lows, upper fronts

Course Outcome 4.

Be prepared for the Transport Canada Commercial Written Exam

Learning Objectives 4.

Material learned in the semester is to prepare students for writing the Sault College Commercial Qualification exam and the Transport Canada Commercial Exam and serve as a basis for IFR weather.

Date:

Friday, July 14, 2017
