

COURSE OUTLINE

NRT0133

Prepared: Lesley Phillips Approved: Sherri Smith

Course Code: Title	NRT0133: TREES AND SHRUBS II
Program Number: Name	1120: COMMUNITY INTEGRATN
Department:	C.I.C.E.
Semester/Term:	18W
Course Description:	Students will learn how to identify plants located in and around the upper Great Lakes region including native deciduous trees and shrubs, native herbaceous and dwarf woody plants, and woody and herbaceous plants considered invasive. Focus will be on gaining skills enabling the identification of trees and shrubs in leaf-off condition using twig, bark, silhouette, reproductive structures and other unique identifying features, and identification of herbaceous and dwarf woody plants using foliage and floral characteristics. The silvics of tree species will be studied to complement their identification. Predominately delivered outdoors in the field in all weather conditions.
Total Credits:	3
Hours/Week:	3
Total Hours:	45
Essential Employability Skills (EES):	<p>#1. Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.</p> <p>#2. Respond to written, spoken, or visual messages in a manner that ensures effective communication.</p> <p>#4. Apply a systematic approach to solve problems.</p> <p>#5. Use a variety of thinking skills to anticipate and solve problems.</p> <p>#6. Locate, select, organize, and document information using appropriate technology and information systems.</p> <p>#9. Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.</p> <p>#10. Manage the use of time and other resources to complete projects.</p> <p>#11. Take responsibility for ones own actions, decisions, and consequences.</p>
General Education Themes:	Science and Technology
Course Evaluation:	Passing Grade: 50%, D
Other Course Evaluation &	Missed Identification Test/Lab Assignment:

COURSE OUTLINE

NRT0133

Prepared: Lesley Phillips Approved: Sherri Smith

Assessment Requirements:

Identification Tests will normally occur weekly during lab portion of the course.

No make-ups will be allowed for field (outdoor) identification tests except under extenuating circumstances.

Missed Lecture Test/Quiz:
Lecture tests/quizzes will be announced at least one week in advance.

For a student to be eligible to complete a missed lecture test/quiz, the instructor must be contacted in person or via email to discuss make-up options prior to a missed class or within 48 hours after the date of the missed lecture test/quiz. Students not contacting the instructor within this time period will get a zero grade on a given assessment for that particular day (except under extenuating circumstances, e.g., doctors note).

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Assignments	20%
Identification tests/lab assignments	60%
Lecture tests/quizzes	20%

Books and Required Resources:

Forest Plants of Central Ontario by Chambers et al. (1996)
Publisher: Lone Pine Publishing

Michigan Trees, Revised and Updated by • Barnes, B. V. and Wagner, W. H. Jr. (2004)
Publisher: University of Michigan Press

Newcomb's Wildflower Guide by Newcomb, L. (1989)
Publisher: Little, Brown and Company, Toronto

Course Outcomes and Learning Objectives:

Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will acquire varying levels of skill development relevant to the following learning outcomes:

Course Outcome 1.

Identify broad-leaf species trees and shrubs in leaf-off condition.

Learning Objectives 1.

COURSE OUTLINE

NRT0133

3

Prepared: Lesley Phillips Approved: Sherri Smith

Identify the morphological features of a woody twig using appropriate terminology
Identify and describe flowering or fruiting structures using appropriate terminology and relate to taxonomic group
Use features such as twigs, bark, flowering and fruiting structures, growth form and ecological associations to correctly identify a particular tree or shrub by their common name
Associate common names with scientific names for all deciduous trees and shrubs studied
Identify Ontario's predominate deciduous tree species (11) by their scientific name

Course Outcome 2.

Associate key identification features with the common names of commercially important western Canadian coniferous trees.

Learning Objectives 2.

Recognize commercially important western Canadian coniferous trees
Associate key features with common names

Course Outcome 3.

Identify woody and herbaceous plants using dichotomous word keys (winter leaf-off trees and shrubs, flowering herbaceous and dwarf woody plants).

Learning Objectives 3.

Associate technical terms with their definitions
Evaluate options set forth in a dichotomous word key
Follow a dichotomous word key in an orderly, systematic manner

Course Outcome 4.

Identify herbaceous and dwarf woody plants and woody and herbaceous plants considered invasive.

COURSE OUTLINE

NRT0133

4

Prepared: Lesley Phillips Approved: Sherri Smith

Learning Objectives 4.

Use features including leaf characteristics and flower structure, size, and colour to correctly identify a particular plant
Recognize the ecological and societal impacts of invasive plants

CICE Modifications:

Preparation and Participation

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class and to take notes.
2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and quizzes.)
3. Study notes will be geared to test content and style which will match with modified learning outcomes.
4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

A. Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

B. Tests may be modified in the following ways:

1. Tests, which require essay answers, may be modified to short answers.
2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.
4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

C. Tests will be written in CICE office with assistance from a Learning Specialist.

The Learning Specialist may:

1. Read the test question to the student.
2. Paraphrase the test question without revealing any key words or definitions.

Prepared: Lesley Phillips Approved: Sherri Smith

3. Transcribe the student's verbal answer.
4. Test length may be reduced and time allowed to complete test may be increased.

D. Assignments may be modified in the following ways:

1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

The Learning Specialist may:

1. Use a question/answer format instead of essay/research format
2. Propose a reduction in the number of references required for an assignment
3. Assist with groups to ensure that student comprehends his/her role within the group
4. Require an extension on due dates due to the fact that some students may require additional time to process information
5. Formally summarize articles and assigned readings to isolate main points for the student
6. Use questioning techniques and paraphrasing to assist in student comprehension of an assignment

E. Evaluation:

Is reflective of modified learning outcomes.

NOTE: Due to the possibility of documented medical issues, CICE students may require alternate methods of evaluation to be able to acquire and demonstrate the modified learning outcomes

Date:

Wednesday, September 6, 2017

Please refer to the course outline addendum on the Learning Management System for further information.
