

COURSE OUTLINE

OAD0109

Prepared: Amy Peltonen Approved: Sherri Smith

Course Code: Title	OAD0109: DATABASE MANAGEMENT AND APPLICATIONS									
Program Number: Name	1120: COMMUNITY INTEGRATN									
Department:	C.I.C.E.									
Semester/Term:	18W									
Course Description:	Data is a valuable resource to companies, and the organizing, creating, maintaining, retrieving, and sorting of data are important activities. Using Access, students will concentrate on transforming raw data into database files that can be queried and organized into accurate, final-form business-style reports and forms.									
Total Credits:	4									
Hours/Week:	8									
Total Hours:	56									
Essential Employability Skills (EES):	#6. Locate, select, organize, and document information using appropriate technology and information systems. #10. Manage the use of time and other resources to complete projects. #11. Take responsibility for ones own actions, decisions, and consequences.									
Course Evaluation:	Passing Grade: 50%, D									
Evaluation Process and Grading System:	<table border="1"> <thead> <tr> <th>Evaluation Type</th> <th>Evaluation Weight</th> </tr> </thead> <tbody> <tr> <td>Assignments</td> <td>10%</td> </tr> <tr> <td>Test 1</td> <td>45%</td> </tr> <tr> <td>Test 2</td> <td>45%</td> </tr> </tbody> </table>		Evaluation Type	Evaluation Weight	Assignments	10%	Test 1	45%	Test 2	45%
Evaluation Type	Evaluation Weight									
Assignments	10%									
Test 1	45%									
Test 2	45%									
Books and Required Resources:	Microsoft Access 2010, Benchmark Series, Levels 1 & 2 by Rutkosky, Seguin, and Rutkosky Publisher: Paradigm Publishing ISBN: 9780763843052 Text and CD									
Course Outcomes and Learning Objectives:	Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will acquire varying levels of skill development relevant to the following learning

outcomes:

Course Outcome 1.

Use the basic features of Access to track information for businesses or individuals.

Learning Objectives 1.

- Understand database concepts
- Open and close Access and database objects
- Insert Quick Start fields
- Create and manage tables
- Define primary keys
- Use the Input Mask Wizard and the Lookup Wizard
- Sort, find, and print records in a table
- Create and manage relationships between tables
- Create and perform queries using the Query Wizard or the Design view
- Create and modify crosstab, duplicate, and unmatched queries
- Create calculated fields
- Use aggregate functions in queries
- Create, navigate, and print forms, reports, and mailing labels
- Customize forms with Form Layout Tools tab options
- Create and use split forms and multiple items form
- Modify, filter, and view data
- Group and sort records in a report
- Maintain and secure a database
- Save a database in alternate formats
- Customize document properties and the Recent Tab Backstage view
- Import and export data

Course Outcome 2.

Use advanced features of Access to customize database objects and manipulate data.

Learning Objectives 2.

- Design the structure of tables to optimize efficiency and accuracy of data

COURSE OUTLINE

OAD0109

3

Prepared: Amy Peltonen Approved: Sherri Smith

- Select appropriate field data types based on analysis of source data
- Create a custom format for text, number, and date fields
- Create a custom input mask
- Use rich text formatting and store the history of changes for a memo field
- Define and use an attachment field with multiple attachments
- Create and edit relationships between tables
- Define a table with a multiple-field primary key
- Create and modify a lookup field to populate records with data from another table
- Create a lookup field that allows multiple values in records
- Define normalization and identify first, second, and third normal form
- Create and run a parameter query
- Add to and remove tables from a query
- Create a self-join to match two fields in the same table
- Create a query that includes a subquery
- Utilize make-table, delete, append, and update queries
- Customize forms by adding, moving, sizing, and formatting control objects
- Create tabbed pages in a form and insert a subform
- Add and format a calculation to a custom form
- Group and ungroup multiple controls
- Add graphics to a form
- Add list boxes to a form
- Create and use custom reports
- Add graphics, hyperlinks, and list boxes to a report
- Insert a subreport into a report
- Change the order of tab order of fields
- Create a new database using a template
- Create a new table by copying the structure of another table
- Utilize the Table Analyzer Wizard and Performance Analyzer
- Use the Database Documenter to print database documentation
- Create, run, edit, and delete a macro and assign a macro to a command button
- Import data from another Access database
- Link to a table in another Access database
- Determine when to import versus link from external sources

CICE Modifications:

Preparation and Participation

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class and to take notes.
2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and quizzes.)
3. Study notes will be geared to test content and style which will match with modified learning

outcomes.

4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

A. Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

B. Tests may be modified in the following ways:

1. Tests, which require essay answers, may be modified to short answers.
2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.
4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

C. Tests will be written in CICE office with assistance from a Learning Specialist.

The Learning Specialist may:

1. Read the test question to the student.
2. Paraphrase the test question without revealing any key words or definitions.
3. Transcribe the student's verbal answer.
4. Test length may be reduced and time allowed to complete test may be increased.

D. Assignments may be modified in the following ways:

1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

The Learning Specialist may:

1. Use a question/answer format instead of essay/research format
2. Propose a reduction in the number of references required for an assignment

COURSE OUTLINE

OAD0109

- 3. Assist with groups to ensure that student comprehends his/her role within the group
- 4. Require an extension on due dates due to the fact that some students may require additional time to process information
- 5. Formally summarize articles and assigned readings to isolate main points for the student
- 6. Use questioning techniques and paraphrasing to assist in student comprehension of an assignment

E. Evaluation:

Is reflective of modified learning outcomes.

NOTE: Due to the possibility of documented medical issues, CICE students may require alternate methods of evaluation to be able to acquire and demonstrate the modified learning outcomes

Date:

Wednesday, September 6, 2017

Please refer to the course outline addendum on the Learning Management System for further information.
