PHILOSOPHY/GOALS

The objective of this course is to increase the student's skill in solving practical business arithmetic problems, assisted by the effective use of the calculator. The topics will include a review of basic operations, ratios, percent, mark-up, simple interest, compounding, and periodic payments.

METHOD OF ASSESSMENT:

Periodic tests and daily assignments based on material in course outline will be given during the semester. A final exam and a make-up test will be at the discretion of the instructor.

The final mark will be based on four unit tests, each representing 25% of the final mark.

Grading: A+ = 90-100%
 A = 80-89%
 B = 65-79%
 C = 55-64%
 I = 45-54%
 R = 0-44%

A passing grade will be based on a minimum grading of 55%.
