NATURE OF COURSE

Seminar provides the forum through which students can process their field placement experiences.

Field placement provides the student with exposure to real life situations. It enables them to gain self-confidence in their abilities, become aware of their motivations and share experiences with professionals in various disciplines involved with caring for and teaching both emotional growth and physical health. This course is designed to facilitate the growth of the student into a competent worker. By meeting as a group, the student will discuss their experiences in the field - problems, anxieties and feelings.

Following are a number of rules pertaining to the student's relationship to the field placement location he or she will be working in. It is imperative that each student comprehend fully and follow closely these rules so as to get the maximum educational value from his or her field placement experience.

1. Find out all you can about your field placement setting, its policies, functions, and general philosophy taking care to ask only pertinent questions.
2. Find out your designated role at your field placement location and follow it well. Remember, you are not on field placement in the capacity of diagnosticians but as students to follow through on the instruction of the field contact personnel. New approaches to your assignments must first be approved by the field contact person.
3. Do not be afraid to ask the staff for guidance. Do not plunge into something you know nothing about.
4. Be polite, courteous and attentive. Remember, you are there to learn and observe.

5. Never be judgmental on the programme carried out by a specific field placement setting. Remember you are a student learning and not someone there to assess the relative merits of the programme. Never be openly critical. Concerns of the service delivery can be discussed in the confidence of the Integrated Seminar.
6. Dress and personal deportment are according to acceptable norms of the placement setting.
7. Be willing to share any pertinent information you have learned in the setting with the staff who work there if you are asked.
8. Any problems encountered in your field placement should be taken to your field work supervisor. Never confront the staff with the problem.
9. Make sure you are always on time for your placement and contact the field work supervisor and the field placement well in advance if it is necessary for you to be absent.
10. Remember, that the experience you have in your field placement are part of a learning experience and are to be held in the strictest confidence. The students will not discuss cases with others who have no direct relationships to the client. This is applied to other staff within your field placement as well as outside. At the field placement keep your records and correspondence in a confidential manner. During the Integrated Seminar you will maintain confidentiality by referring to your clients by fictitious names and deleting only facts that you believe to be identifying to those present.
11. Always complete all assignments that you must do while at field work.
12. The Integrated Seminar is correlated to your field placement and is compulsory.
