**I. PHILOSOPHY/GOALS:**

This course is designed to introduce the student to the broad range of human services available in the community; the client's relationship to these services; and the workers role in these services. Government structure and legislation will be examined.

The primary goal of this course is to familiarize the student with the function and administrative structure of available social services and the legislation pertinent to the delivery of these services.

**II. STUDENT PERFORMANCE OBJECTIVES:**

Upon successful completion of this course the student will:

- 1) Develop an awareness of social welfare as an institution.
- 2) Become familiar with municipal, provincial, and federal government funding responsibilities and mechanisms.
- 3) Become aware of social services available and the population served by them.
- 4) Obtain particular knowledge of children's services.
- 5) Acquire familiarity with the Child and Family Services Act.

**III. METHODOLOGY**

Course presentation will vary according to material presented.
