I. COURSE DESCRIPTION:

Developing partnerships with families is an integral part of the 'family-centred' approach in early childhood education. This course studies various aspects of this developmentally appropriate practice by examining specific strategies for building effective partnerships such as: positive communication practices, supporting family involvement, and exploring ways to respond to the changing face of Canadian families. The increasing role of the educator within the community will also be examined especially in the area of facilitating parent workshops

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Demonstrate understanding of the diverse needs of families, the community resources that support families, as well as, identify strategies to meet the needs of families within the early childhood setting. *(Reflecting ECE Program VLO: #1, #4, #6,#10 and EESkills #1,#4,#5,#6,#7#10)*

Potential Elements of the Performance:

- describe families in today's society and identify various factors affecting families in Canada today
- explore the implications of brain research on the role of the teacher and the family in providing optimal learning opportunities for children
- identify the diverse families found in Canada today
- evaluate the role of the teacher in supporting families with diverse situations, challenges, strengths, and needs
- analyze the effects of the changing family on the child-care community
- discuss the role of teachers in a wide range of services to families

If a faculty member determines that a student is at risk of not being successful in their academic pursuits and has exhausted all strategies available to faculty, student contact information may be confidentially provided to Student Services in an effort to offer even

more assistance with options for success. Any student wishing to restrict the sharing of such information should make their wishes known to the coordinator or faculty member

VI. SPECIAL NOTES:

Confidentiality Protocol as per ECE Program Manual

Students are to maintain the privacy of discussions within the classroom and respect and uphold confidentiality where this applies. In some classes students will have opportunities to share information about themselves and placements. In order to provide a safe environment students are expected to refrain from communicating (oral, written including electronic) about these conversations outside of the classroom setting

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

Assignment submission format

All assignment submissions (unless specifically stated by the professor) are to be submitted electronically on the scheduled due date/time through the course LMS drop box. Unless previously negotiated with the professor, assignments submitted through direct email to the professor will not be accepted.

All assignment submissions must be sent in PDF format. If the professor is unable to “open” or read the submission, the student will be notified by email and receive a mark of “0” for the assignment.

Submission due dates:

The scheduled due date for all assignments / tests are located on the assignment outline and on the LMS calendar. It is the expectation that students refer to the course site on LMS to keep track of assignments due dates and expectations. Students are expected to submit their assignments no later than the scheduled due date and time posted on LMS.

Late submissions:

Late submissions will be accepted for a period of 5 days after the scheduled time /due date. Assignments will not be accepted / graded after 5 days. Late submissions received after the scheduled due date / time will receive a 5% deduction on the overall assignment mark and a further 5% deduction for every day the assignment is late up to a maximum of 25% (5 days).

NOTE: The Late Submission option is not applicable to assignments with Extensions. Late submissions will not be accepted past the last scheduled class for the course

Requests for Extensions:

Students can request the professor to consider extending the due date based on extenuating circumstances that the student presents. Only extension requests made by email to the professor 24 hours before the scheduled due date and time will be considered. Granting extensions and determining the length of extension is up to the discretion of the professor.

NOTE: Assignments with extended due dates will not be accepted past the last scheduled class for the course. The Late submission policy does not apply to due dates with extensions.

Presentations

Students must notify the professor through a direct email to the professor prior to the presentation date of their absence. The student is encouraged to communicate the circumstances that the student is experiencing that are preventing them from completing the assignment. It will be up to the discretion of the professor if an alternate date / arrangement can be made. Students who fail to notify the professor of their absence prior to the presentation, will receive an automatic mark of "0" for the assignment

Quizzes/ Tests

All quizzes will be delivered through the Course LMS 'Quiz' featured. The date and time availability of the quiz will be clearly posted and communicated on LMS. It is the student's responsibility to keep track of dates / times when quizzes and tests are scheduled. It is up to the student to complete the quiz by the closing date and time. Students must notify the professor through a direct email to the professor 24 hours prior to the scheduled quiz / test if they are unable to complete the quiz. It will be up to the discretion of the professor if an alternate date/arrangement can be made. Students who fail to notify the professor of their absence prior to the test/quiz will receive an automatic mark of "0" for the test/quiz assignment.

Learning Environment

In the interest of providing an optimal learning environment, students are to follow these expectations;

- Students are reminded to ensure that hand held electronic devices are on "silent" mode. Students are encouraged to move outside of the classroom environment should the need arise that they need to use their electronic device (such as a phone)
- Students are expected to refrain from engaging in conversations that are disruptive to the learning that is taking place in the classroom

- Students who wish to use an electronic device such as a tablet or laptop during class must first submit their request for permission to use the device as per the instructions located on LMS. Students who have not been given permission or who are using their electronic device for non-class use will be denied use of the device during the class.
- Students are expected to conduct themselves within the class in a professional and respectful manner. Students should be aware that the expectations for their conduct in class are outlined in the "STUDENT CODE OF CONDUCT" found on the Sault College website / Student Services.
- Students are expected to be prepared for each class by ensuring that they have brought all of the required materials and resources to the class.
- Light snack foods are permitted in the class during scheduled class, however students who wish to consume "meals" will be asked to consume their meal in another location outside of the classroom setting.
- Scent free classrooms are requested by the professor to ensure a safe environment for those who are sensitive to scents.

Students are responsible for obtaining course material missed due to class absence
