Course Outcomes and Learning Objectives:

Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will acquire varying levels of skill development relevant to the following learning outcomes:

Course Outcome 1	Learning Objectives for Course Outcome 1
Interpret consultation results to determine type of cutting design to be performed	<ul style="list-style-type: none"> . Determine facial shape and bone structure of head Identify prominent or irregular features Interpret hair analysis in terms of: <ul style="list-style-type: none"> texture elasticity growth patterns Apply knowledge of reference points and areas of the head for execution of the hair cut design
Course Outcome 2	Learning Objectives for Course Outcome 2
Describe the purpose of elevations and angles used in cutting hair.	<ul style="list-style-type: none"> Differentiate between the different elevations used to cut hair (0,45,90) Describe the outcome of the finished cut when using over-directed elevation Describe and demonstrate consistent tension and moisture on the hair when cutting Identify horizontal, vertical and diagonal lines and angles used in hair cutting
Course Outcome 3	Learning Objectives for Course Outcome 3
Compare the results achieved from the use of stationary and traveling guides.	<ul style="list-style-type: none"> Differentiate between a stationary guide and a traveling guide Identify the outcome when using a traveling guide Identify the outcome when using a stationary guide
Course Outcome 4	Learning Objectives for Course Outcome 4
Select tools and apply techniques to achieve	Demonstrate the use of shears, razors, clippers, trimmers and texturizing shears

	desired cutting results.	Describe the purpose of maintaining consistent tension on the hair during cutting service and demonstrate correct technique Adapt cutting procedure to accommodate face shape, density, texture, natural growth and wave patterns Perform procedural steps for cutting service to assure accuracy in design Demonstrate effective cross checking for evenness of cut Perform visual inspection for design shape, form and texture
	Course Outcome 5	Learning Objectives for Course Outcome 5
	Describe procedures for non-elevated and elevated haircuts on wet and dry hair.	Apply client information to design a specific cut Apply knowledge of reference points, head surface changes and areas of the head for execution of the design Demonstrate effective body positioning and tool manipulation Design cutting procedure Complete procedural steps to finish cut

CICE Modifications:

Preparation and Participation

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class and to take notes.
2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and quizzes.)
3. Study notes will be geared to test content and style which will match with modified learning outcomes.
4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

A. Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

B. Tests may be modified in the following ways:

1. Tests, which require essay answers, may be modified to short answers.
2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.

4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

C. Tests will be written in CICE office with assistance from a Learning Specialist.

The Learning Specialist may:

1. Read the test question to the student.
2. Paraphrase the test question without revealing any key words or definitions.
3. Transcribe the student's verbal answer.
4. Test length may be reduced and time allowed to complete test may be increased.

D. Assignments may be modified in the following ways:

1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

The Learning Specialist may:

1. Use a question/answer format instead of essay/research format
2. Propose a reduction in the number of references required for an assignment
3. Assist with groups to ensure that student comprehends his/her role within the group
4. Require an extension on due dates due to the fact that some students may require additional time to process information
5. Formally summarize articles and assigned readings to isolate main points for the student
6. Use questioning techniques and paraphrasing to assist in student comprehension of an assignment

E. Evaluation:

Is reflective of modified learning outcomes.

NOTE: Due to the possibility of documented medical issues, CICE students may require alternate methods of evaluation to be able to acquire and demonstrate the modified learning outcomes

Date: October 4, 2019
