COURSE DESCRIPTION:

This field-based course is designed to give the student the functional skills to interact with the developmentally handicapped person in one-to-one, small and large group settings.

COURSE GOALS:

1. To maximize the opportunities for individual program planning, small and large group activities.
2. To provide a process to facilitate the student learner toward being an effective staff member.
3. To enhance the D.S.W.'s understanding of the need for and philosophy of leisure time and recreation.

COURSE OBJECTIVES:

1. The student will demonstrate progress toward a leadership role and progress toward being a co-operative team member through an experimental learning model.
2. The D.S.W. will demonstrate and verbalize adapting specific activities to meet the limitations of an individual or group.
3. The D.S.W. will demonstrate, in written form, his/her identification of group goals; strengths and needs of his/her assigned client; and individual objectives and planning for training.

METHODOLOGY:

1. Field-based instruction: in which the student will practise a "learn by doing" approach.
2. Lectures: in which the instructor will discuss concepts related to activities for the developmentally handicapped, i.e. age appropriateness, normalization, charting, leadership, etc.
3. Any other methods or materials deemed by the instructor to be necessary to enable the class and/or the individual to reach the course objectives, i.e. YMCA Swim Meet, Play Day, Floor Hockey, etc.

TEXTS: Suggested Resources (students required to purchase)

1. "A Manual for the Aide in Adapted Aquatics"
2. "Planning Individualized Education Programs in Special Education"
3. "The New Game Book" (students not required to purchase)
