COURSE PHILOSOPHY - PART ONE

This course is designed to build in the student a growing understanding and the development of a child from birth through to the teenage years. The application of this knowledge in this field will enable her to work more effectively with young children.

GOALS - PART TWO

1. To provide the student with the theoretical knowledge of the principles of growth development of children.
2. To develop suitable methods of reviewing current research studies in the area.
3. To develop skills in assessing individual development and thus provide a basis for stimulating optimum development of the child through preschool settings.

TERMINAL/BEHAVIOURAL OBJECTIVES - PART THREE

1. To have developed knowledge in theories of child growth and development.
2. To have developed an understanding of the processes of growth and development of the child.
3. To have developed an awareness of research studies and ability to review these for information and new ideas.
4. To have developed an understanding of the contribution of research to knowledge in the field of child development.
5. To have developed an understanding of the individual child and be able to apply it to the overall pattern of growth and development.
6. To have acquired skills in assessing individual development in the child.
7. To have developed knowledge in methods of stimulating optimum growth and development in the child.
