Aiding in the Classroom, Part II

TEXTBOOK: ~~XXXX~~

COURSE DESCRIPTION:

Will allow the student to focus on an area of specialization. The student will conduct an in-depth study of a specific topic related to aiding and present this as a final major paper, drawing conclusions and, where appropriate, making recommendations.

GENERAL OBJECTIVES:

The student will conduct an in-depth study of a specific topic related to ~~aiding~~ *observation in the classroom*

SPECIFIC OBJECTIVES:

The student will research the topic in detail.

The student will produce a research report outlining the methodology, content and purpose of the final paper.

The student will obtain and analyze data related to the topic.

The student will compile the data and prepare a final major paper on the topic drawing conclusions and, if appropriate, make recommendations.

EVALUATION AND GRADING:

Students' progress will be evaluated on an ongoing basis. Such techniques as class discussion/participation, interviews, instructor observation, written tests and examinations as well as specific student assignments will be used.

On completion of the subject, each student will be evaluated as follows:

- A - Excellent
- B - Superior
- C - Satisfactory
- D - Marginal
- F - Unsatisfactory
