COURSE DESCRIPTION

The primary goal of this course is to introduce applied behaviour analysis to the student in a reasonably complete, technically accurate, contemporary manner. Operant conditioning will be emphasized keeping in mind ethical considerations.

COURSE GOALS

Upon completion of the course the student will

1. be better able to observe behaviour with greater understanding.
2. understand the basic principles of respondent and operant conditioning.
3. have a general understanding of how behavioural procedures work in managing behaviour.
4. begin to realize the legal and ethical considerations concerning the use of behaviour modification and the responsibilities that go with the procedures.

TEXTBOOK
