## **COURSE DESCRIPTION**

Fieldwork I provides an opportunity for students to develop the basic observation skills necessary to be an effective teacher assistant. Students gain valuable experience in the field which complements their studies at the College and allows them to gain a genuine "feel" for their chosen career. It enables them to gain self-confidence in their abilities and provides them with role models.

## **STUDENT PERFORMANCE OBJECTIVES (OUTCOMES)**

1. The student will gain a greater understanding of methods and procedures used in the classroom in which he/she is placed and demonstrate this through maintenance of a field journal.
2. The student will observe a variety of techniques used in the education of exceptional children and record these in his/her field diary or journal
3. The student will perform all assigned duties and activities accurately and efficiently.
4. The student will follow the safety and behaviour management procedures established for the school and classroom he/she is assigned to.
5. The student will demonstrate appropriate oral and written communication both with teachers and children.
6. The student will demonstrate appropriate responses to the needs expressed by the children.
7. The student will demonstrate a willingness to learn by listening to directions/explanations attentively and by asking appropriate questions.
8. The student will be punctual and attend regularly.
9. The student will be appropriately dressed and groomed for the classroom he/she is assigned to.
10. The student will adhere to the field placement policies and guidelines of Sault College and the Board of Educations.

## **METHODOLOGY**

Fieldwork I consists of placement one day per week in an elementary school setting. Settings vary from regular classrooms with mainstreamed exceptional children to special education classes to junior and senior kindergarten classes. Students are assigned to one placement setting for the semester. The student will perform all assigned duties expected of a teacher assistant in training. The student is expected to "make-up" any time missed due to illness, etc. and must complete their field placement at the site assigned by the College.

### **EVALUATION**

Students are assigned an "S" or "U" grade. Grade is based on meeting the objectives stated, adherence to the Field Placement Guidelines for Teacher Assistants, and full attendance during scheduled placement days. Evaluation is completed by both the field placement supervisor and college faculty.

### **SPECIAL NOTES**

Students with special needs (eg. physical limitations, visual impairments, hearing impairments, learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor.
