This course examines the role of the teacher as administrator and/or supervisor in Early Childhood Education programs in terms of planning, organizing, operating and evaluating such a program.

### Course Goals

1. To provide the students with knowledge and understanding of the role of the administrator in a centre for young children through simulation of the role by planning, operating, and evaluating procedures.
2. To provide the students with concrete experiences by engaging them in a number of practices which will enable them to become more effective administrators, or staff person with an appreciation of the role of the administrator.
3. To develop in the student an ability to work with people in an administrative capacity.

### Course Objectives

The student will:

1. Develop a set of objectives for the particular preschool being planned by the student. The objectives will be derived from the values implicit in the student's personal philosophy of preschool education.
2. Present a plan of the physical plant (building, grounds, equipment) which reflect the objectives in (1) and includes short- and long-range plans for development and maintenance of the property.
3. Develop an operating budget for the school and a plan for effective record-keeping practices.
4. Develop efficient and effective operating procedures for office and educational program.
5. Develop guidelines for food purchasing and menu planning.
6. Develop personnel policies which include job descriptions, staff orientation and professional development.
7. Present a plan for the children's day at school, including teacher assignment.
8. Develop effective forms which keep accurate and current records of children in the school.
9. Develop a plan to promote effective communication with parents during the school year.

## Course Objectives continued...
