APPROVED: *M Koch* *Jan. 30, 1985*
Chairperson Date

Course Description

The study of health and nutrition relating to the needs of preschool children. Food composition, selection and preparation will be studied as well as the health care of children in pre-school centres.

Course Goals

1. To help the student develop an understanding of the basic principles of normal nutrition.
2. To help the student develop an understanding of the relationship of good nutrition to good health.

Course Objectives

The student must:

1. Demonstrate an awareness and understanding of nutrition needs of the human body.
2. Demonstrate a knowledge of basic health in relationship to good nutrition.

Methodology

The student will gain the knowledge and understanding of Health and Nutrition through research presentations, projects, class participation, lectures and audiovisual presentations.
