

**I. COURSE DESCRIPTION:**

Part I will provide an intensive study of the psychological, cognitive, physical and social development of the child from conception to early childhood. Psychological concepts, theories and research will be examined in relation to the child's development. The application of theory and research to the problems of childhood will be discussed.

Philosophically, this course emphasizes a holistic view of the undeniable worth of children.

**II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:**

Upon successful completion of this course, the student will demonstrate the ability to:

1. **demonstrate a thorough understanding of child development. (part of ECE Program Standard Vocational Learning Outcome #1)**

Potential Elements of the Performance:

- identify developmental milestones and variations in children
- support the development and learning of individual children within the context of family, culture and society
- analyze data on current child developmental issues

2. **promote the overall well-being and facilitate positive change for children**

Potential Elements of the Performance:

- define and critique the concept of development and the methods for studying development
- explain, compare, contrast and apply selected theories of child development
- describe and contrast the psychological, cognitive, physical and social developmental achievements of the prenatal period, infancy and early childhood
- analyze child development literature using such skills as definitions of terms and research validity

3. **develop and maintain effective communication skills – written, verbal and non-verbal (ECE Program Standard Vocational Outcome #6)**

Potential Elements of the Performance:

- communicate with sensitivity
- ensure that information is comprehensive, concise, factual and

- objective
    - utilize appropriate form, style and level of analysis/detail on message, audience and purpose of communication
    - use and accepted standard of writing, grammar, spelling and format (eg. APA style)
4. **utilize a variety of observation techniques to enhance work with children, families and co-workers (ECE Program Standard Vocational Learning Outcome #3)**  
Potential Elements of the Performance:
- define, apply and analyze selected vocabulary from the child development literature
  - utilize appropriate techniques to identify children's skills, abilities and interests
  - interpret information gathered and make recommendations for future analysis or research

### III. TOPICS:

1. Research in Child Development
2. Biological and Environmental Foundations
3. Prenatal Development
4. Birth and the Newborn Baby
5. Physical, Cognitive, Emotional and Social Development in Infancy, Toddlerhood and Early Childhood

### IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

1. Berk, L.E. (2008) **Infants, Children and Adolescents**, 6<sup>th</sup> Edition, Allyn and Bacon
2. Jamieson, J., Bertrand, J. & Ibrahim, E. (Eds.) (2005). **Science of Early Childhood Development [online resource]**. Winnipeg, MB: Red River College, Retrieved from <http://www.scienceofecd.com>

**V. EVALUATION PROCESS/GRADING SYSTEM:****1. Prenatal and Childhood Current Issues from the Science of Early Childhood Development 10%**

Over the course of the semester, students will complete assignments using the resources from the Science of ECD. These will be related to current issues regarding prenatal development and the development of infants, toddlers and preschoolers. Complete criteria and due dates will be explained in class. Due dates will be posted on LMS.

**2. Professional Research Article Review 10%**

Students will review a research study that is published in a professional journal. This review will consist of a brief summary of the main points of the research article and a critique of the information provided. The format and criteria for completing this assignment will be explained in class. Due dates will be reviewed in class and posted on LMS.

**3. In-class Activities (Collaborative Work Teams) 20%**

Students are expected to participate in various in-class activities and discussions throughout the course within their collaborative work teams. Some of these activities may require pre-class preparation. Activities will relate to video workshops related to the course content and activities related to our on-line resource, The Science of ECD. Students will complete these activities during class time. Students are expected to be fully participating in these activities. Students who are not present for these activities will not have an opportunity to make them up and will be given a mark of "0" for the activity.

**4. Tests 60%**

There will be 4 tests spaced throughout the semester. These tests will be based on the material presented in class and in the course text materials. **Students must achieve an overall 50% average on these tests in order to receive credit in HSC 104.**

The following semester grades will be assigned to students:

<u>Grade</u>	<u>Definition</u>	<u>Grade Point Equivalent</u>
A+	90 – 100%	4.00
A	80 – 89%	3.00
B	70 - 79%	2.00
C	60 - 69%	1.00
D	50 – 59%	0.00
F (Fail)	49% and below	

CR (Credit)	Credit for diploma requirements has been awarded.
S	Satisfactory achievement in field /clinical placement or non-graded subject area.
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.
X	A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.
NR	Grade not reported to Registrar's office.
W	Student has withdrawn from the course without academic penalty.

***NOTE: Mid Term grades are provided in theory classes and clinical/field placement experiences. Students are notified that the midterm grade is an interim grade and is subject to change.***

## VI. SPECIAL NOTES:

### Course Outline Amendments:

The professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

### Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Prior Learning Assessment:

Students who wish to apply for advance credit transfer (advanced standing) should obtain an Application for Advance Credit from the program coordinator (or the course coordinator regarding a general education transfer request) or academic assistant. Students will be required to provide an unofficial transcript and course outline related to the course in question. Please refer to the Student Academic Calendar of Events for the deadline date by which application must be made for advance standing.

Credit for prior learning will also be given upon successful completion of a challenge exam or portfolio (only available in certain courses).

Substitute course information is available in the Registrar's office.

Disability Services:

If you are a student with a disability (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Disability Services office. Visit Room E1101 or call Extension 2703 so that support services can be arranged for you.

Communication:

The College considers **WebCT/LMS** as the primary channel of communication for each course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the **Learning Management System** communication tool.

Plagiarism:

Students should refer to the definition of “academic dishonesty” in *Student Code of Conduct*. A professor/instructor may assign a sanction as defined below, or make recommendations to the Academic Chair for disposition of the matter. The professor/instructor may:

- (i) issue a verbal reprimand,
- (ii) make an assignment of a lower grade with explanation,
- (iii) require additional academic assignments and issue a lower grade upon completion to the maximum grade “C”,
- (iv) make an automatic assignment of a failing grade,
- (v) recommend to the Chair dismissal from the course with the assignment of a failing grade.

In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Student Portal:

The Sault College portal allows you to view all your student information in one place. **mysaultcollege** gives you personalized access to online resources seven days a week from your home or school computer. Single log-in access allows you to see your personal and financial information, timetable, grades, records of achievement, unofficial transcript, and outstanding obligations. Announcements, news, the academic calendar of events, class cancellations, your learning management system (LMS), and much more are also accessible through the student portal. Go to <https://my.saultcollege.ca>.

Electronic Devices in the Classroom:

Students who wish to use electronic devices in the classroom will seek permission of the faculty member before proceeding to record instruction. With the exception of issues related to accommodations of disability, the decision to approve or refuse the request is the responsibility of the faculty member. Recorded classroom instruction will be used only for personal use and will not be used for any other purpose. Recorded classroom instruction will be destroyed at the end of the course. To ensure this, the student is required to return all copies of recorded material to the faculty member by the last day of class in the semester. Where the use of an electronic device has been approved, the student agrees that materials recorded are for his/her use only, are not for distribution, and are the sole property of the College.

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

Tuition Default:

Students who have defaulted on the payment of tuition (tuition has not been paid in full, payments were not deferred or payment plan not honoured) as of the first week of *November for fall courses, March for winter courses, or June for summer courses* will be removed from placement and clinical activities. This may result in loss of mandatory hours or incomplete course work. Sault College will not be responsible for incomplete hours or outcomes that are not achieved or any other academic requirement not met as of the result of tuition default. Students are encouraged to communicate with Financial Services with regard to the status of their tuition prior to this deadline to ensure that their financial status does not interfere with academic progress.

Specific Class InformationAssignments:

- Assignments must be submitted on the due date, at the beginning of class, unless otherwise specified by the instructor. If assignments are late, both of the following steps must be taken in order for the assignment to be evaluated:
  1. Assignments that are late are to be handed in to Room E3207 (slip under the door).
  2. The instructor must be notified, through LMS that the assignment has been handed in. An attachment (in Microsoft Word format) of the completed assignment must be included. A reply will be sent back to you indicating that the material has been received.
- Late assignments **will be deducted 5% per day (20% maximum deduction).**
- Assignments received **more than 1 week late will not be evaluated.**
- If a particular assignment has no late submissions permitted, this will be clearly indicated when the assignment is distributed and the late policy will not apply and submissions received after the due date will not be evaluated, unless previous arrangements have been made in writing with the instructor.
- All assignments are to be typed unless otherwise stated.

- In-class or weekly assignments are due on the assigned date. These assignments will not be accepted after that date, as they are a part of class work and discussions.
- Students are responsible for retaining a file of all drafts and returned assignments. We suggest students keep their computer file of assignments until the end of the semester when grades have been calculated. In the event of a grade dispute, students must produce the graded assignment, so it can be recorded.
- Students must adhere to dates set for oral presentations unless the instructor has approved prior arrangements. Students who do not present on their presentation date will forfeit the mark for that assignment.

#### *Tests/Quizzes:*

Tests/Quizzes must be completed on the date scheduled. If unable to attend ***due to illness or extenuating circumstances***, contact the instructor prior to the start of the test at 759-2554 ext. 2816. An alternative date must be arranged before the next class. Students must arrive on time to write scheduled tests. If a student arrives late and it is after some students have already completed the test and left the testing room, the test cannot be completed by the late arriver.

#### *Missed Classes:*

If a student misses a class, it is their responsibility to ask a classmate to take notes and pick up assignments and handouts.

#### *Learning Environment:*

In the interest of providing an optimal learning environment, students are to follow these expectations:

- Students should be aware that the expectations for their conduct in class are outlined in the Student Code of Conduct. Students are expected to treat all individuals in the class with mutual respect.
- Students are to keep private conversations out of the classroom. Being attentive and on task creates a positive learning environment for everyone. Students are reminded that using one's cell phone or text messaging indicates that you are not on task with the learning material and you will be asked to leave the classroom to do this activity. This includes communication using laptops which is not related to the course content.
- Late students are expected to quietly enter the classroom and sit in the nearest seat available. Have your notes and writing materials ready before you enter class. If assignments and activities have begun, please wait until they are completed. Wait until after class to speak to classmates or the instructor about missed material. Make sure that you have made arrangements with someone in class to pick up handouts and take notes for you.
