**NUR 334-6**

**COURSE NAME**

**CODE NUMBER**

**TOTAL CREDIT HOURS: 60**

**PREREQUISITE(S):** BIO 240, NUR 224, NUR 226

**I. PHILOSOPHY/GOALS:**

The purpose of this course is to assist the student to use an integrated approach and critical thinking skills in applying the nursing process in the care of clients of all ages with a chronic and/or terminal illness. Content is organized using examples of selected supportive nursing diagnoses which will direct the student to identify nursing interventions from knowledge of previous Nursing Theory, Biology, Pathophysiology, Sociology and Psychology.

**II. STUDENT PERFORMANCE OBJECTIVES:**

Upon successful completion of this course the student will:

1. Demonstrate the use of the nursing process for selected clients and family with a chronic and/or terminal illness,
2. Use adaptation theory as a conceptual basis for nursing practice in assisting clients and their families with a chronic and/or terminal illness.
3. Interact in a therapeutic manner with selected clients and their families with a chronic and/or terminal illness.
4. Respond to an individual, family or group in a manner reflecting their worth and dignity.
5. Examine willingly own nursing practice in terms of professional standards.
6. Apply criteria for quality health care in current practice situations.
7. Seek opportunities for own personal and professional development.
