TOTAL CREDIT HOURS _____

PREREQUISITE(S): Admission to Nursing Programme

I- PHILOSOPHY/GOALS:

Supervised clinical nursing practice provides the opportunity for students to use the nursing process in assisting the client to maintain and promote adaptation. The student will apply the learning from the Nursing Practice Theory course, which is being taken concurrently.

Students will also be given the opportunity to learn and practice skills in the lab setting at school and to gain computer literacy skills.

II. STUDENT PERFORMANCE OBJECTIVES:

Upon successful completion of this course, the student will:

- 1) Demonstrate the use of the nursing process for individuals who require support to maintain adaptation.
- 2) Demonstrate the relationship between adaptation and nursing practice in assisting clients who require support to maintain and promote adaptation.
- 3) Apply theory concepts and principles of interpersonal relationships (in one-to-one relationships with client, faculty, and nursing team members responsible for client care). The focus will be clients with adaptive communication patterns. The student will apply theoretical concepts of group dynamics in situations involving peers.
- 4) Demonstrate behaviours which reflect the inherent worth and dignity of the individual.
- 5) Recognize legal and ethical issues in nursing practice.
- 6) Describe the structure and function of the nursing team.
- 7) Recognize the need for personal and professional development.

V. EVALUATION METHODS: (includes assignments, attendance requirements, etc.)

The following documents contain learning outcomes and/or policies on which student performance is determined.

1. Clinical Objectives:

Based on the Nursing Programme Standards, these objectives identify the Standards of Nursing Practice which the student is expected to achieve in Semester I. Both lab and clinical components of the course are evaluated against these objectives.

2. Nursing Programme Policies & Guidelines;

a) Programme Policies

The document identifies policies related to assignments, testing, absenteeism, safety incidents and dress code.

b) Promotion Policies

The document identifies the philosophy of evaluation, evaluation policies and procedures and the role of the Department Progress Committee.

Formative evaluation methods include weekly meetings with the clinical teacher to share the student's and the teacher's evaluation of the students' ongoing performance.

In the laboratory component, evaluation will also include Supervised Practices.

GRADING:

Based on the summative evaluation for the semester, the student is awarded a grade of "Satisfactory" (S), or "Unsatisfactory" (U). Grading is based on clinical/lab performance, written assignments (clinical/community), skill competency, attendance and completion of assignments in computer labs.

ATTENDANCE:

Attendance is mandatory at all lab and clinical components. Refer to Programme Policies regarding attendance.
