**COURSE NAME**

---

**CODE NO.**

**TOTAL CREDITS:** 3

**PREREQUISITE(S):** GER 122

**I. PHILOSOPHY/GOALS:**

This issues course will deal with the most current topics addressed in long term care reform, the advocacy act, consent to treatment, euthanasia, living wills, suicide, the political economy and public sector social services targeted at seniors. Students will become aware of the extent to which political activity by seniors plays a role in preserving the Canadian Welfare.

**II. STUDENT PERFORMANCE OBJECTIVES (OUTCOMES):**

Upon successful completion of this course the student will:

1. discuss the impact on caregivers and care receivers in Ontario and Canada.
2. examine current legislation on the Advocacy Act and its impact on gerontology workers and their clients.
3. re-examine seniors' rights and the need for seniors to fully understand all parameters of consent to treatment.
4. define active and passive euthanasia and examine societal, medical and legal attitudes toward each.
5. discuss components of living wills and examine possible family reactions as well as the legal and ethical considerations of implementing a dying person's wishes.
6. demonstrate ability to identify risk factors contributing to suicide in the elderly, detect cues that could assist in setting up appropriate interventions and support systems.
7. identify frequency and distribution of various types of substance abuse as they relate to an aging population.
  - a) alcohol abuse
  - b) barbiturate or hypnotic abuse
  - c) prescription or over-the-counter drug abuse
8. discuss the impact of substance abuse on mental disorders of depression, paranoia, delirium.
9. identify current political strategies targeting seniors, their services, equities and liabilities.
10. examine recent political activity by seniors that enhance the welfare of all aging Canadians.
11. identify desired, existing and developing services to meet the needs of aging Canadians.
