Total Credits:	6
Hours/Week:	3
Total Hours:	72
Prerequisites:	BSCN2057, BSCN2107, BSCN2144, CHMI2220
Substitutes:	NURS3005
This course is a pre-requisite for:	BSCN4057, BSCN4084, BSCN4206, BSCN4416
Course Evaluation:	Passing Grade: 60%, C

Evaluation Process and Grading System:	Evaluation Type	Evaluation Weight
	Final Exam	35%
	Team Assignment 1: Part A	10%
	Team Assignment 1: Part B	5%
	Team Assignment 2: Part A	10%
	Team Assignment 2: Part B	5%
	Team Assignment 2: Part C	5%
	Test 1	15%
	Test 2	15%

COURSE OUTLINE

BSCN3005

Prepared: Kay Vallee Approved: Bob Chapman

Books and Required Resources:	<p>Community Health Nursing in Canada by Marcia Stanhope Publisher: Elsevier Edition: 3 ISBN: 978-1-77172-018-2</p> <p>Canadian Community as Partner: Theory and Multidisciplinary Practice by Ardene Robinson Vollman Publisher: Wolters Kluwer Edition: 4 ISBN: 978-1496339980</p>
Ends in View:	<p>Upon successful completion of this course, the student will demonstrate the ability to:</p> <ul style="list-style-type: none"> - describe basic principles, concepts, theoretical frameworks informing community health nursing, - delineate the diversity of roles and functions of community health nurses. - interpret key epidemiological concepts and common epidemiological measurements, - conduct a community health assessment on an assigned community to identify community health needs for an aggregate, planning appropriate health promotion activities to address priority community health needs, - describe the health program planning process and its application to nursing in the community, - summarize models, theories and frameworks of health promotion and community change, - demonstrate knowledge of strategies for prevention, health protection and health promotion when working with individuals, families, groups, aggregates and communities, - demonstrate knowledge of environmental health, international health and global health issues as they apply to community health nursing, - demonstrate knowledge and strategies required to work as a team member, - prepare a health promotion grant application to address a health need of an aggregate based on the conducted community health assessment.
Process:	<p>Active co-operative learning is the philosophical approach in this course. Participants will develop a sense of community health nursing practice and develop social and political awareness in a variety of community contexts by engaging in a variety of learning experiences such as: discussion, debate, case study analysis, health communication development, class presentation, community health assessment, health promotion grant proposal preparation, and critical reflection.</p>
Date:	<p>Wednesday, August 30, 2017</p>
	<p>Please refer to the course outline addendum on the Learning Management System for further information.</p>
