Course Outcomes and Learning Objectives:

Course Outcome 1.

Ends-in-view:

Learners will have opportunities to practice health and physical assessment in the laboratory environment and then will apply their interviewing and assessment skills in their clinical experiences.

Learners will have opportunities to practice professionally and to promote safe, supportive healing environments for persons experiencing chronic health challenges.

Learning Objectives 1.

Process:

A variety of methods such as case studies, simulation, group discussion, practice in interviewing, practice of physical assessment skills, and sharing of participant experiences will be used. Participants will be encouraged to integrate knowledge from previous and current courses to augment learning in Nursing Praxis and Professional Caring I.
