

COURSE OUTLINE: PNG234 - PHARMACOLOGY I

Prepared: Gwen DiAngelo, Donna Alexander, updated by Andrew Metcalfe 2020

Approved: Bob Chapman, Chair, Health

Course Code: Title	PNG234: PHARMACOLOGY I
Program Number: Name	3024: PRACTICAL NURSING
Department:	PRACTICAL NURSING
Semesters/Terms:	21F, 22W
Course Description:	This course introduces the learner to the concepts of pharmacology as selected drug groups are studied. The course will emphasize the role and responsibilities of the practical nurse in the administration and monitoring of client medications. The learner will study the mechanism of action, therapeutic indications and nursing responsibilities (including drug monitoring and management of adverse drug effects). In addition, this course will emphasize common medication dosages, drug calculations, nursing legislation and standards and health teaching. Furthermore, this course will detail the professional implications of medication administration, as learners prepare for their pre-graduate experience. This course is comprised of in-class lecture (theory) and simulation, which provides the learner the opportunity to discuss and apply pharmacologic concepts.
Total Credits:	3
Hours/Week:	3
Total Hours:	45
Prerequisites:	PNG111, PNG121, PNG127, PNG130, PNG131
Corequisites:	PNG233, PNG236, PNG238
This course is a pre-requisite for:	PNG250, PNG252, PNG253
Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable.	3024 - PRACTICAL NURSING VLO 1 Communicate therapeutically with clients and members of the health care team. VLO 2 Assess clients across the life span, in a systematic and holistic manner. VLO 3 Plan safe and competent nursing care, based upon a thorough analysis of available data and evidence-informed practice guidelines. VLO 4 Select and perform nursing interventions using clinical judgment, in collaboration with the client and, where appropriate, the health care team, that promote health and well-being, prevent disease and injury, maintain and/or restore health, promote rehabilitation, and/or provide palliation. VLO 5 Evaluate the outcomes resulting from all interventions in the nurse-client interaction and modify the plan of care as required. VLO 6 Act equitably and justly with clients and members of the health care team. VLO 7 Adapt to a variety of health care settings, using different leadership skills and styles as appropriate to each setting. VLO 9 Practise in a self-regulated, professional and ethical manner, complying with relevant

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2021-2022 academic year.

	legislation and with the standards of both the regulatory body and the practice setting to provide safe and competent client care.					
Essential Employability Skills (EES) addressed in this course:	EES 1	Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.				
	EES 2	Respond to written, spoken, or visual messages in a manner that ensures effective communication.				
	EES 3	Execute mathematical operations accurately.				
	EES 4	Apply a systematic approach to solve problems.				
	EES 5	Use a variety of thinking skills to anticipate and solve problems.				
	EES 7	Analyze, evaluate, and apply relevant information from a variety of sources.				
	EES 11	Take responsibility for ones own actions, decisions, and consequences.				
Course Evaluation:	Passing Grade: 60%, C					
	A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.					
Other Course Evaluation & Assessment Requirements:	College of Nurses of Ontario (CNO) Registered Practical Nurse (RPN) Entry-to-Practice Competencies (ETPs) 1, 2, 18, 61, 62					
Books and Required Resources:	Practice Standard Medication by College of Nurses of Ontario Publisher: College of Nurses of Ontario Edition: 2019 https://www.cno.org/globalassets/docs/prac/41007_medication.pdf Roach`s Introductory Clinical Pharmacology by Ford Publisher: Lippincott Williams & Wilkins Edition: 11th ISBN: 9781451188950					
Course Outcomes and Learning Objectives:	<table><tr><th>Course Outcome 1</th><th>Learning Objectives for Course Outcome 1</th></tr><tr><td>1. Relate the principles of basic pharmacological theory to the nursing process and the administration of medications. CNO ETP RPN 1, 2, 8, 18, 61, 62</td><td>1.1 Apply the nursing process to the administration of medications across the lifespan. 1.2 Define the common terms used in the study of pharmacology. 1.3 Apply the common terms used in pharmacology including the concepts of pharmaceutics, pharmacokinetics, pharmacodynamics and pharmacotherapeutics. 1.4 Discuss the lifespan considerations associated with medication administration (including pregnant women, breastfeeding, infants, children and older adults). 1.5 Incorporate Canadian legislation which governs the administration of medication (including the Food and Drug Act and the Controlled Substance Act). 1.6 Discuss the impact of medication errors and the process involved in reporting a medication error. 1.7 Discuss the importance of patient education as a component of medication administration including prescription medications, over the counter medications and natural health products.</td></tr></table>	Course Outcome 1	Learning Objectives for Course Outcome 1	1. 	1.8 Understand the importance of medication administration in the treatment plan. 1.9 Recognize assessment needs of the patient undergoing drug therapy. 1.10 Identify how drug therapy is integrated into the safe evidence-based care of clients. 1.11 Recognize gender, ethnic, and cultural influences impacting drug therapy.
Course Outcome 2	Learning Objectives for Course Outcome 2
2. Explain the action, therapeutic indications and nursing responsibilities of select medication classifications. CNO ETP RPN 8, 61, 62	2.1 Analgesic agents (non-opioids, opioids, partial opioid agonists and opioid antagonists). 2.2 Non-steroidal anti-inflammatory agents. 2.3 General/local anesthetic agents and moderate sedation. 2.4 Antibiotic agents. 2.5 Antifungal agents. 2.6 Antiviral agents. 2.7 Discuss medications that directly affect the respiratory system including antihistamines, decongestants, antitussives, expectorants, bronchodilators and other inhaled medications. 2.8 Discuss medications that directly affect the cardiovascular system including select medications used in the treatment of uncomplicated arrhythmias, heart failure, chest pain, hypertension, fluid overload, hypotension and shock, hematological disease and hypercholesterolemia. 2.9 Discuss medications that directly affect the gastrointestinal system including acid control agents, antidiarrheals, laxatives, antiemetics and antinausea agents. 2.10 Discuss medications that directly affect the integumentary system (e.g. topical medications). 2.11 Discuss the nursing responsibilities associated with medications that alter fluid and electrolyte balance.
Course Outcome 3	Learning Objectives for Course Outcome 3
3. Apply provincial nursing legislation and standards which impact medication administration and nursing care. CNO ETP RPN 1, 2, 8, 61, 62	3.1 Discuss the College of Nurses of Ontario's Medication Standard (revised 2019). 3.2 Describe the College of Nurses of Ontario's Decision Tree: Deciding about medication administration. 3.3 Discuss the ethical principles associated with medication administration. 3.4 Describe the role of effective communication as a component of safe medication administration. 3.5 Explain the Registered Practical Nurse's accountability in supervising Unregulated Care Providers who administer medications. 3.6 Compare the role of the Practical Nurse versus the role of the Registered Nurse in the administration of medications. 3.7 Discuss the knowledge of pharmacology and principles of safe medication practice.
Course Outcome 4	Learning Objectives for Course Outcome 4
4. Apply basic math skills
