

SAULT COLLEGE OF APPLIED ARTS & TECHNOLOGY

SAULT STE. MARIE, ONTARIO

COURSE OUTLINE

Course Title: NETWORK SERVICE AND SUPPORT

Code No: CSN302 Semester: 5

Program: COMPUTER NETWORK TECHNOLOGY

Author: Tycho Black

Date: August , 1998 Previous Outline Dated:

Approved: A. DeSantis Sept. 1/98
Dean Date

Total Credits: 6

Prerequisites: CSN203

Length of Course: 4 Hours /Week Total Credit Hours: 96

I. COURSE DESCRIPTION:

This course focuses on the service and support role of a network technologist, applying knowledge learned in this and previous courses to actual problems and issues faced in real networks. Through case studies and troubleshooting simulations the goal is to develop skills that will enhance the technologist's ability to maintain and improve networks and their resources. In addition to the technical issues associated with failure modes, performance issues, upgrades and the human side of customer support will be emphasized, in a variety of network operating system environments.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

A. Learning Outcomes:

1. Troubleshoot common problems in Windows NT and Novell Netware networks.
2. Maintain a secure, optimized server environment.
3. Recommend efficient, cost-effective installation and upgrade paths for networks while documenting the pros and cons associated with them.
4. Provide service and support for clients in a professional and efficient manner.

B. Learning Outcomes and Elements of the Performance:

Upon successful completion of this course the student will demonstrate the ability to:

1. Troubleshoot common problems in Windows NT and Novell Netware networks.

Elements of the Performance:

1. Utilise web-based and other resources such as FAQ files, newsgroups, resource kits, help files, etc. to facilitate solutions to network-related problems.
2. Discuss and present case histories of network-related problems.

3. Maintain Windows NT Server environments and troubleshoot common problems using available resources.
4. Maintain Novell Netware environments and troubleshoot common problems using available resources.
5. Support interoperability between NT and Netware environments.

This learning outcome will constitute approximately 50% of the course.

2. Maintain a secure, optimized server environment.

Elements of the Performance:

1. Perform backups for a variety of environments.
2. Be aware of security issues in NT and Netware environments and implement measures to ensure adequate security of resources.
3. Use a Desktop Management Suite to manage network resources.
4. Optimize the server environment enabling peak performance.

This learning outcome will constitute approximately 20 % of the course.

3. Recommend efficient, cost-effective installation and upgrade paths for networks while documenting the pros and cons associated with them.

Elements of the Performance:

1. Use a network documentation or drawing utility to document network resources.
2. Recommend viable upgrade paths for various LANs, WANs and Enterprise networks.
3. Compare current Windows NT, Netware and Unix products and upgrades and recommend an upgrade for particular networks.
4. Perform Client software installation and support utilising automation techniques.

This learning outcome will constitute approximately 20% of the course.

4. Provide service and support for clients in a professional and efficient manner.

Elements of the Performance:

1. Describe the requirements and operation of a corporate Help Desk.
2. Provide customer service in a professional, effective manner employing appropriate behaviours.
3. Employ appropriate software and license management practices and maintain effective records of resources.

This learning outcome will constitute approximately 10% of the course.

IV. TOPICS TO BE COVERED:

1. Maintaining network services in a Windows NT environment .
2. Maintaining network services in a Novell Netware environment.
3. Upgrade options for typical LAN and WAN environments.
4. Best practices for effective customer service.
5. Maintaining a secure, optimized network.

IV. REQUIRED STUDENT RESOURCES/TEXTS:

TEXT BOOK:

- Notes and resources provided by instructor.
- Internet-based resources.

REFERENCES:

- "Windows NT Troubleshooting and Configuration", Robert Reinstein, Sams Publications
- "Windows NT Server 4: Professional Reference (2nd Ed), by Karanjit Siyan, New Riders.
- "Network Administrator: Netware 4.1" by Ted Simpson, David Auer, Mark Ciampa, ITP (Course Technology)

V. EVALUATION PROCESS/GRADING SYSTEM:

2 WRITTEN TESTS	60%
LAB PROJECTS/PRESENTATIONS	40%

(The percentages shown above may vary slightly if circumstances warrant.)

GRADING SYSTEM

A+	90	-	100%
A	80	-	89%
B	70	-	79%
C	55	-	69%
R	Repeat		Less than 55%
X	Incomplete		

UPGRADING OF INCOMPLETES

When a student's course work is incomplete or final grade is below 55%, there is the possibility of upgrading to a pass when a student meets all of the following criteria:

1. The students attendance has been satisfactory.
2. An overall average of at least 45% has been achieved.
3. The student has not had a failing grade in all of the theory tests taken.
4. The student has made reasonable efforts to participate in class and complete assignments.

The nature of the upgrading requirements will be determined by the instructor and may involve one or more of the following: completion of existing labs and assignments, completion of additional assignments, re-testing on individual parts of the course or a comprehensive test on the entire course.

LAB REPORTS

Required lab report requirements will be detailed before labs are assigned.

ATTENDANCE:

Absenteeism will affect a student's ability to succeed in this course. Absences

Service and Support

due to medical or other unavoidable circumstances should be discussed with the instructor.

VI. SPECIAL NOTES:

- **Special Needs**

Students with special needs (e.g. physical limitations, visual or hearing impairments, or learning disabilities) are encouraged to discuss any required accommodations confidentially with the instructor and/or contact the Special Needs Office so that support services can be arranged.

- **Retention of Course Outlines**

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other post-secondary institutions.

- **Course Modifications**

Your instructor reserves the right to make reasonable modifications to the course as deemed necessary to meet the needs of students or take advantage of new or different learning opportunities.

VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced standing in the course should consult the instructor. This course is not eligible for challenge at the present time.
