Instructor: Ian Murrant

COURSE PHILOSOPHY/GOALS

The course will explore the professional conduct and attitude with particular reference to Enforcement. The course will focus on the individual's ability to professionally represent him/herself within the field.

STUDENT PERFORMANCE OBJECTIVES

Upon successful completion of this course the student will:

1. be able to show an understanding of the different concepts of ethics;
2. know the specific codes of ethics;
3. develop interpersonal and leadership communication skills, professionalism, professional conduct, professional interaction, decision-making on ethical value systems, and creativity and common sense.

COURSE OBJECTIVES

- a) To gain a clear understanding of the concept and attitude of professionalism, and to relate this to one's work and one's life.
- b) To become familiar with codes of ethics of one's profession, and of related professions.
- c) To further develop practical understanding of professional interaction.
- d) To understand the decision-making process.
- e) To demonstrate responsive decision making in various role play situations. To be able to critique one's own decision making.
- f) To gain a practical understanding of values and ethical belief systems, generally and personally.
- g) To demonstrate understanding of how value systems affect and direct behaviour.
- h) To demonstrate the ability to perceive other point's of view, while doing one's job.
