Course Outcomes and	Course	Outcome 1	Learning Objectives for Course Outcome 1		
Learning Objectives:			-		

Learning Objectives:

| Course Outcome 1 | Learning Objectives for Course Outcome 1 |
| SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

The learner will:

- 1. Apply the principles of health promotion in relation to the identified determinants of health (education, water, health, food security and agriculture, and alternative income) during the learning experience.
- 2. Demonstrate an understanding of cultural competence as evidenced though daily interactions during the experience, during the end of day reflections, group activities and daily debriefing. supported with independent self-reflections and iournaling.
- 3. Be able to verbalize the importance of a community investment approach towards the development of a sustainable infrastructure as opposed to individual hand-outs.
- 4. Develop donor campaign to ensure growth and continuity for future service learning opportunities through efforts to develop diverse and creative fundraising efforts.
- 5. Collaborate with other campus groups, programs, or student initiatives to share insight of their educational experience.
- 6. Engage other students, faculty, college staff, and/or community members in a intercultural presentation that promotes initiatives relevant to world issues reflective of the service experience.

Upon successful completion of this course, the student will demonstrate the ability to:

*Identify the importance of cultural competency to understand the needs of individuals, families or groups that is respectful and responsive to the needs of diverse populations.

- *Develop an awareness of global and local issues.
- * Become familiar with broad intercultural relationships as they relate to the learning experience.
- * Learn skills that help in developing viable solutions to issues and problems through engaging in social justice learning and action.
- * Demonstrate leadership skills that can be applied to global and local levels to engage in creating change.
- * Strengthen cross cultural engagement among the student body and campus community

THEORETICAL KNOWLEDGE AND COURSE CONCEPTS:

- Cultural competence, responsiveness and awareness
- Empowerment (hand up vs hand out)
- **Group Process and Communication**
- Determinants of Health
