

COURSE OUTLINE: NRT131 - FALL FIELD CAMP

Prepared: Brian Anstess

Approved: Sherri Smith, Chair, Natural Environment, Business, Design and Culinary

Course Code: Title	NRT131: FALL FIELD CAMP - FIRST YEAR
Program Number: Name	5212: ADVENTURE RECREATION 5214: FISH/WILD CONSERVATN 5220: NAT ENVIRONMENT TN 5221: NAT ENVIRONMENT TY 5230: FORESTRY TECHNICIAN
Department:	NATURAL RESOURCES PRG
Semesters/Terms:	20F
Course Description:	Fall Field Camp introduces a variety of field skills essential to Technicians in the Natural Environment. Students will work together learning the fundamentals of safety, and teamwork essential to success in the Natural Environment. Navigating with compass, GPS, satellite imagery and topographic maps are practiced. Instruments used in forest measurements will be demonstrated and students will conduct a survey of a forested area. Participants will be introduced to the use and safe operation of firefighting equipment such as fire pumps, hoses and back pack pumps. Students will conduct a stream assessment by investigating chemical, physical and biological parameters. Student Technicians will also use a variety of methods to collect terrestrial insects and categorize specimens.
Total Credits:	2
Hours/Week:	2
Total Hours:	30
Prerequisites:	There are no pre-requisites for this course.
Corequisites:	There are no co-requisites for this course.
Substitutes:	NET101
Vocational Learning Outcomes (VLO's) addressed in this course:	5212 - ADVENTURE RECREATION
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 2 Identify, discuss, organize and assess common Flora & Fauna species found throughout ON, including biological and physiological characteristics.
	VLO 4 Identify and evaluate the requirements for leading and participating in expeditions or field exercises using a variety of Adventure Recreation activities.
	VLO 6 Demonstrate a sound understanding of the significance of the Adventure Recreation and Parks Industry including relevant legislation, trends and issues.
	VLO 7 Describe the scientific method and how it shapes our understanding of the ecology of the natural world.
	VLO 8 Demonstrate an understanding of sustainable development and apply the foundations in the natural environment.
	VLO 9 Safely operate and maintain equipment used in Adventure Recreation and Park operations.

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

VLO 10 Evaluate and apply current technologies and mathematical concepts used to collect, manage and analyze data.

5214 - FISH/WILD CONSERVATN

- VLO 1 Demonstrate clear, concise and industry appropriate written, spoken and visual communication skills
- VLO 2 Identify, discuss, organize and assess common flora and fauna species found throughout Ontario, including biological characteristics
- VLO 3 Demonstrate the ability to follow standardized protocols to collect field data on fish and wildlife populations in a variety of weather and site conditions.
- VLO 5 Start and manage their careers in the Fish and Wildlife Conservation field.
- VLO 6 Understand the importance of managing fish and wildlife resources in Ontario and related federal, provincial and municipal legislation.
- VLO 8 Demonstrate an understanding of sustainable development and apply these principles to the natural environment.
- VLO 9 Safely operate and maintain equipment used in Fish and Wildlife Conservation.
- VLO 11 Analyze, evaluate and apply subjective and objective safety considerations.

5220 - NAT ENVIRONMENT TN

- VLO 2 Utilize natural resources equipment and technology to accurately identify ecosystem components for purposes of conserving and managing natural resources.
- VLO 3 Apply the basic concepts of science to natural resource conservation and management.
- VLO 4 Conduct natural environment assessments according to standard field survey methods, including the use of appropriate equipment and materials.
- VLO 6 Practice principles and ethics associated with natural resource conservation and management issues.
- VLO 7 Work safely in adherence to occupational health and safety standards.
- VLO 12 Travel accurately in a timely manner in the outdoors using appropriate navigation aids and motorized transport equipment.
- VLO 13 Apply awareness of global environmental issues to conservation and management of natural resources.

5221 - NAT ENVIRONMENT TY

- VLO 1 Collect, analyze, interpret and report on data from representative biological and environmental samples.
- VLO 2 Utilize natural resources information technology equipment to assemble, analyze and present identified ecosystem components for purposes of conserving and managing natural resources.
- VLO 3 Apply the basic concepts of science to natural resource conservation and management.
- VLO 6 Practice principles and ethics associated with natural resource conservation and management issues.
- VLO 7 Ensure all work is safely completed in adherence to occupational health and safety

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

standards.

VLO 10 Communicate technical information accurately and effectively in oral, written, visual and electronic forms.

5230 - FORESTRY TECHNICIAN

VLO 1 Conduct forest inventory surveys and field measurements to determine forest resources and values in forests and woodlots.

VLO 3 Perform technical functions in silvicultural operations and assist in the monitoring and evaluation of the effectiveness of silvicultural practices.

VLO 7 Select, operate, troubleshoot and maintain tools and equipment in a variety of environmental conditions and in accordance with safety and operating standards.

VLO 8 Work independently and in a collaborative environment while applying effective teamwork, leadership and interpersonal skills.

VLO 10 Develop strategies for ongoing professional development to enhance work performance in the forestry sector.

Essential Employability Skills (EES) addressed in this course:

EES 3 Execute mathematical operations accurately.

EES 5 Use a variety of thinking skills to anticipate and solve problems.

EES 7 Analyze, evaluate, and apply relevant information from a variety of sources.

EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others.

EES 10 Manage the use of time and other resources to complete projects.

EES 11 Take responsibility for ones own actions, decisions, and consequences.

Course Evaluation:

Satisfactory/Unsatisfactory
&

A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.

Other Course Evaluation & Assessment Requirements:

Academic success is directly linked to attendance. Missing more that 1/3 of the course hours in a semester shall result in an `F` Grade for the course.

Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
1. Use a magnetic hand compass and navigate to within 5% accuracy of the destination.	1.1 Identify the parts of a compass. 1.2 Understand and set magnetic declination on a compass. 1.3 Be able to use flagging tape in order to travel in a straight line.
Course Outcome 2	Learning Objectives for Course Outcome 2
2. Measure and record distances using a 50 m chain, compass and GPS.	2.1 Determine pacing factor and be able to pace distances. 2.2 Understand the measurement divisions for a 50 m chain. 2.3 Be able to maintain and properly store equipment. 2.4 Complete a closed traverse using a compass and 50 meter rope to a specified accuracy, determine area, calculate percent error compared to a GPS traverse.
Course Outcome 3	Learning Objectives for Course Outcome 3

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

3. Use satellite imagery as well as an OBM map to travel from one location to another using a magnetic hand compass.	3.1 Understand scales of photographs and maps. 3.2 Identify major topographical and cover type features on maps and imagery. 3.3 Be able to measure distances and directions on maps and imagery.
Course Outcome 4	Learning Objectives for Course Outcome 4
4. Identify native trees and shrubs from foliage or cone characteristics.	4.1 Collect cones and foliage from coniferous trees. 4.2 Name the native using approved botanical names.
Course Outcome 5	Learning Objectives for Course Outcome 5
5. Safely use firefighting equipment including fire pumps, back pack pumps and fire hose.	5.1 Demonstrate safe use and operation of water pumps and hose used in forest fire fighting operations. 5.2 Correctly roll fire hose. 5.3 Become proficient in the use of a soft backpack pump.
Course Outcome 6	Learning Objectives for Course Outcome 6
6. Collect and categorize terrestrial insects.	6.1 Demonstrate effective use of a variety of methods for the collection of terrestrial insects. 6.2 Accurately document & categorize insect specimens.
Course Outcome 7	Learning Objectives for Course Outcome 7
7. Conduct a stream assessment.	7.1 Accurately assess chemical and physical parameters of a stream including dissolved oxygen, pH, alkalinity, carbon dioxide, total dissolved solids and turbidity. 7.2 Use proper techniques to collect and examine aquatic invertebrates using dip nets and surber samplers. 7.3 Calculate a diversity index for the site using aquatic invertebrates. 7.4 Complete field forms neatly and accurately.
Course Outcome 8	Learning Objectives for Course Outcome 8
8. Conduct a forest inventory survey.	8.1 Complete a dot tally and record legible field notes. Measure and record tree diameters using calipers and diameter tapes. 8.2 Measure tree heights using clinometers. 8.3 Measure the age of trees with an increment corer and count growth rings.
Course Outcome 9	Learning Objectives for Course Outcome 9
9. Operate a canoe using appropriate canoe strokes to navigate a water course to a specified destination.	9.1 In cooperation with canoeing partner, execute a draw, sweep, pry or bow stroke where appropriate and travel to destination. 9.2 Apply map scale to estimate distances travelled.
Course Outcome 10	Learning Objectives for Course Outcome 10
10. Gain an appreciation for safety, risk assessment, communication and teamwork for successful Field operations.	10.1 Perform a risk hazard assessment (Tailgate Meeting) to assess hazards associated with activities. 10.2 Maintain a positive outlook and be respectful towards others. 10.3 Demonstrate the importance of safety, attitude and teamwork when working in the Natural Environment. 10.4 Safely utilize and store equipment necessary for the days

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

field activities.
10.10 Demonstrate a respectful attitude towards the environment.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Attendance and Participation (S/U)	100%

Date:

June 17, 2020

Addendum:

Please refer to the course outline addendum on the Learning Management System for further information.

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.
