DATE

COURSE DESCRIPTION:

This course is a continuation of PSY 102. It will focus on the psychology of human behaviour. Areas of study will include the following: human sexual behavior, psychotherapies, social cognition, and social behaviors. Student learning will be enhanced by discussions of related contemporary issues affecting the science of psychology and human behaviour.

COURSE GOALS:

To develop a basic understanding of:

1. human sexuality including gender identity, sexual behaviour, sexual dysfunction and treatment.
2. theories of personality development, and personality assessment.
3. stress and stress responses, including factors affecting stress, and techniques for coping.
4. abnormal behaviour and factors related to abnormal behaviour.
5. various schools of psychotherapy including psychoanalysis, behaviour therapy, client centered, and cognitive therapy.
6. social cognition and social behaviours including attitudes and behaviour, aggression, conformity, and behaviour in groups.

TEXTBOOK:

Introduction to Psychology. Rod Plotnik. Second Edition, 1989. Random House.

NOTE: Additional readings and student viewing of audio-visual materials will be assigned during the course, at the discretion of the instructor. The exact dates of tests referred to in the "Syllabus" section will be announced in class. Students will also be responsible for understanding audio-visual material, lecture and class-discussion materials presented during the course.
